

AUTOMATIC ESPRESSO MACHINES

GA021 | GA021-1

The perfect blend of artistry and consistency, Astra's Automatic espresso machines provide perfect portion control with the touch of a button. Designed for high output with the addition of a self-tamping, high-density group head, nickel plated copper boiler and a temperature stabilizing thermocycling system.

KEY FEATURES

- Automatic dosing
- Self-tamping group head, non tamping option available
- Manual steam controls, automated option available
- Manual hot water controls
- Easy plumbed water connection & drain hook-up
- Quiet internal motor with rotary-vane Procon pump
- Thermocycling system combined with a high-density group head achieves precise temperature control in high volume use
- Stainless steel & color panel options available

Astra's thermocycling system combined with high-density group head delivers superior temperature consistency.

Gourmet Automatic
GA021

Creating the perfect blend of artistry and consistency, Astra's automatic range provides portion control with the touch of a button. Designed for high output with the addition of a self-tamping, high-density group head, nickel plated copper boiler and a temperature stabilizing thermocycling system.
