

HOBART FOOD PROCESSORS

Efficient, precise, consistent results to help you create amazing food.

HOBART

HOBART FOOD PROCESSORS

Speed, precision and consistency you can depend on.

Hobart food processors let you use more fresh ingredients, maximize their shelf life and minimize prep time—so you can spend more time creating great food. These hardworking machines quickly dice, shred and chop; bowl models also grind, whip and emulsify. All Hobart food processors deliver consistent results, are easy to use and are built to deliver long lives of reliable service—making them perfect kitchen assistants.

Bowl Style

Best for: Chopping, mincing, mixing and emulsifying. Whip butter, chop nuts/seeds, mix dough and more.

Model shown: HCM62

COOLCUTTER™ knives

Exclusive design uses two stainless steel turning knives that force product into two stainless steel, serrated cutting knives for faster processing, minimizing temperature increases.

Patented integral multi-function wiper system

Guides product into cutting tools for faster processing by scraping bowl sides; provides better viewing by cleaning the underside of the cover.

Durable XYLEX™ cover with bowl gasket

Holds up to heat better than standard polypropylene materials. Ensures clear visibility while preventing contents from escaping for more complete processing.

Triple interlock switch

Prevents machine operation unless the bowl, the cover and the lid lock arm are all in place. A mechanical brake stops the blade in three seconds.

2 hp motor

Delivers the power needed to handle tough jobs.

Multiple processes

Mixes, chops, grinds, whips and emulsifies.

Two available bowl sizes

Choose a four-quart or six-quart bowl to best meet your needs.

HOBART FOOD PROCESSORS

Speed, precision and consistency you can depend on.

Continuous-Feed Style

Best for: Slicing, dicing, grating and shredding. Prep large volumes of ingredients, including nuts, fruits, vegetables and cheese.

Model shown: FP250

Large, easily removable feed hopper

Accepts a wide variety of products with virtually no pre-cutting. No-tool removal for easy cleaning.

420 rpm cutting tool speed

Delivers precise cutting and dicing without bruising or mashing product.

De-coring screw

Deflects product away from the plate hub for more complete processing. Accommodates full-size hopper.

Angled front

Positioned at a 50° angle for easier product loading with less operator fatigue.

All-aluminum hopper and housing

Makes cleanup easier; anodized finish resists harsh chemicals.

Double interlock switch

Prevents machine operation when the pusher plate swings away or is open, or if the feed cylinder is removed.

The FP400i Continuous-Feed Food Processor

innovative design. **i**mpressive capacity.

Your high-volume kitchen needs a high-capacity food processor. The Maximum Heavy-Duty FP400i delivers, handling 130 pounds of product every minute. Use it hour after hour: This continuous-feed food processor is built to withstand continuous operation, producing up to 3,000 meals a day.

And with three available options to deliver great results on a wide variety of products, the high-capacity FP400i is highly versatile too.

Manual Push Feeder

All types of products of different sizes can be loaded into the manual feed hopper's stacking cylinder.

Tube Feeder

Best for loading long, narrow products vertically and cutting in a specific direction.

Bulk Feed Hopper

Used primarily for round products like potatoes, onions and tomatoes; enables continuous filling by the bucketload.
