MEET ELLIPSE™

THE FUTURE OF BLENDING HAS ARRIVED,

AND IT'S ABOUT TIME! Experience the power of top-down blending that propels you beyond the limits of physics. The brand-new Waring® Ellipse™ Blending Solution has been designed to change the way you think of blending with shorter cycles, greater output, and more consistent results.

Designed to take on every blending task with optimal efficiency, the Ellipse™ revolutionizes blending. With a dual-motor system that maximizes speed and power to let you serve more customers in less time, the Ellipse™ blends any product quickly. Don't let ingredients, time, manpower, or equipment limit you any longer! With the Ellipse™, you're now free to go beyond traditional blending, and your customers will thank you!

THE SYSTEM

THE DRIVE

Ellipse™ Drive system is powered by a rechargeable lithium-ion battery pack and infrared technology.

THE LID

The BPA-free lid with locking pin system has a dual removable seal system for easy cleaning.

THE DASHER

The durable snap-in Dasher is driven 360° by the Ellipse™ Drive, grazing container walls, forcing ingredients into the blending blades, eliminating air pockets, and ensuring proper blends—every time!

THE JAR

The 32-oz. capacity, BPA-free copolyester container has a heavy-duty stainless steel blending assembly for powering through anything in its path.

Ellipse™

THE DRIVE

A high-torque motor and powerful lithium-ion battery pack power the Ellipse™ Drive to produce over 1,000 smoothies or smoothie bowls on a single charge.

The Ellipse™ system uses infrared technology to activate Auto Start. When the Drive is in place and the Sound Enclosure is closed, the Drive automatically runs for 30 seconds while the Xtreme™ blender blades do their thing.

The Ellipse™ can also be controlled manually, putting the power in your hands!

THE DOCKING STATION

A cradle stores the Ellipse™ Drive between blends for easy access. The Docking Station can be placed in any direction under the base for space-saving convenience.

THE CHARGING STATION

Charge your Ellipse™ Drive in under 2 hours with a rapid charging system. Plug in the Drive at the end of the day so you're powered up and ready to roll tomorrow!

Also available, a Triple Charging Station – an ideal space and energy-saving option for higher volume establishments with multiple Ellipse™ blenders in operation.

THE XTREME®

From the bottom up, the Waring Xtreme's® 3.5 peak horsepower motor and 30,000 RPM provide unmatched power and precision. When paired with the Ellipse™ from the top down, 4 programmable stations are all you need to achieve the results you've been searching for, each and every time.

THE SOUND ENCLOSURE

The all new SE1500 automatically powers the Ellipse™ Drive with an Infrared Reflection System when the Drive is in position and the Sound Enclosure is lowered.

Completely redesigned to further help reduce noise and vibration, the Sound Enclosure proves you can still have commercial power without commercial-strength noise.

THE BENEFITS

LIMITLESS MENU DEVELOPMENT

Go beyond the boundaries of traditional blending. Free yourself from equipment limitations. No longer let traditionally "tough-to-blend" ingredients inhibit your creative possibilities.

DRAMATICALLY REDUCE BLEND TIMES

10-second smoothies
15-second smoothie bowls
Blend quicker and yield consistent results every time. Don't reblend—just BLEND!

INCREASED REVENUE AND CUSTOMER THROUGHPUT

Shorter blend times yield quicker service, allowing you to serve more customers than ever before. This enhances customer satisfaction and will keep them coming back for more while the increased throughput will result in more money in your pocket!

LOWER INITIAL INVESTMENT COST

The efficiency of the Ellipse™ allows for lower initial investment costs for your establishment. You'll need fewer blenders to accomplish the same or greater output.

NUTRITIOUS AND CONSISTENT RESULTS

Shorter blend cycles and fewer sudden bursts of speed minimize the heat and oxidation in the product, maintaining the nutritional value of your blends.

REDUCE WASTE, INCREASE PROFITS

Extra liquids to complete your blends are a thing of the past. Stop dumping excess product and profits down the drain.
