

# Tools *of the* Trade

*Hand-made tools and innovative mixing*

## BEND IT LIKE ERIK

You've never seen a dough hook bend like this before. These hand-made tools are made with attention to detail and professional pride by Erik, a veteran blacksmith. Seven unique bends are made on a single solid stainless steel rod to create the world's most effective dough hook. Dough is kneaded and pushed down into the bowl so it doesn't "climb" the tool. Double pins are added to the hook rather than the planetary bayonet for reinforcement and easier, more cost-effective tool replacement.

## WHIP IT REAL GOOD

Our handcrafted wire whip attachments deliver outstanding results in record time. Hand-bent wires interlace for a tight fit, improving durability of the tool and quality of the mix. Smaller gaps between wires cut down on product getting stuck, which helps more of the ingredients incorporate properly. The KODIAK wire whip is designed with offset wire geometry, which creates the perfect space between the whip and the bowl. This allows the whip to gain higher turbulence. Each wire is attached to a solid center joint to achieve a stronger construction. For heavier batches, Varimixer offers a heavy-duty whip, a reinforced whip and a wing whip.

## CAN'T BE BEAT

The Varimixer flat beater isn't really a flat beater at all. Rather than having rounded bars connect inside the beater frame, we've engineered the twisted blades to provide a better, more thorough mix in less time. Ingredients are churned downward and inward while circulated around the perimeter of the bowl. More directional movement mixes more completely in less time.

## BEYOND THE STANDARD

*Add-on tools and accessories*

The bowl scraper is a great addition to a mixer, helping re-incorporate batter into the mix for consistently high quality and less waste. No unmixed ingredients are left at the bottom of the bowl, and results are guaranteed every batch.

*Blue nylon for high visibility*

Varimixer offers a powder mixer attachment for uniform ingredient incorporation of dry powder mixes. Great for combining spices, cake mixes, freeze-dried hiking food and much more.

There's more to Varimixer accessories than the standard attachments. Tool storage is made simple with the wall-mounted attachment rack, available in two sizes for 10-40 qt. or 60-150 qt. mixers.
