- Large Cooking Capacity
- 180 servings of 3 oz. portions
- Thermal Safety Fuse built-in
- Automatic Shut-off
- Easy-to-clean removable Pan Liner

# **Panasonic ideas for life**

## Commercial Electric Rice Cooker

### Thermostat for Precision Control

The rice cooker will maintain the temperature of the cooked rice for up to 2 hours under nominal\* operating conditions, virtually eliminating burning or overcooking of rice. As a result, rice is cooked to the Chef's preference.

### Easy Push-Button Operation

The push of a button starts the rice cooking. As soon as the rice is cooked, the unit shuts itself off.

### Alternate Uses

Not only does it cook rice but can braise, heat liquids and cook many different items — call or visit our virtual test kitchen for Chef's Technical Support recipes. See website below.

### Large Capacity

SR-GA721 can cook up to 40 cups in approximately 40 minutes or less.

### Direct Heating System

Specially sheathed heating elements heat the pan bottom directly which minimizes heat loss and, in turn, saves energy costs. A built-in thermal safety fuse will protect the unit from possible temperature rise.

### Easy-to-clean Removable Pan Liner

The included aluminum alloy dent resistant pan lifts out of the cooker to make washing and rinsing a breeze. An optional "non-stick" dent resistant pan is also available.

### UL and NSF Approved

SR-GA721 is built with durability and attention to safety that has earned certification from both Underwriters Laboratories and National Sanitation Foundation for commercial use.

\*Ambient room temperature of 70°F with pan covered.

#### SR-GA721 Specifications

Raw Rice	14 lbs. (40 - 6 oz. measures)
Servings	180 - 3 oz. Portions
Cook Time	Approximately 40 mins.
Power Source	208V – 60Hz
Power Consumption	2235 W
Amperage	10.8 Amps
Cord Length	67"
Net Weight	24.9 lbs. (11.3kg)
Carton Size	21" x 21" x 14"
Master Carton	1 Carton
Master Carton Weight	27 lbs.
Master Carton Cu. Ft.	3.51 cu. ft.
Color	Silver

Limited Warranty - 6 months parts and labor.
