(1880mm High x 864mm Wide x 1022mm Front-to-Back)**Oven Interior Dimensions:**24" High x 29" Wide x 22-1/2" Deep
(61mm High x 737mm Wide x 572mm Deep)**DESCRIPTION:**

The Market Forge Space Saver Electric Standard Depth Convection Oven is designed to have a small foot print. This space saving oven reduce energy costs and provide superior cooking with five racks and even heat distribution.

Design engineered air circulation system combined with 9kW per oven adds up to more product in less time. This oven has energy savings in mind at all times.

The 8000 Single and 8092 Stacked Convection Ovens provide many standard features that are optional in other brands: Standard features include; 3-heating elements for 9kW, two-speed motor -1/2 HP, electrical thermostat adjustable from 150° to 500°F, two speed motor (*to select best air circulation for desired results*), glass door (*right hand side*), two interior lights, 5 chrome plated racks with 11 positions and stainless steel stand.

Oven shall be constructed of stainless steel on front, sides and top. Oven doors swing open 135° for easier access for loading and unloading. Stainless steel handle adds to the rugged construction and beauty in your kitchen. If you are looking for superior quality and commitment to performance, you can rely on the Space Saver Series Convection Ovens.
