

9003 Integrity® Three Warmer In-Line Pour-Over Coffee Brewer

Integrity®. It's more than just a name. It's a philosophy. It's a belief that building the world's finest coffee brewers means using the best designs and the best parts. Which is exactly what you'll find with this exceptional line. Each model features our exclusive Ready-to-Brew Light and our patented water delivery system. Two foolproof ways to a perfect pot of coffee each and every time. The Bloomfield Integrity series, honestly the best.

Features

- A high level of commonality of parts with other Bloomfield models will significantly reduce the inventory of spare parts required to service many body styles.
- Exclusive design provides **easy access to components** for quick service.
- **Ready-to-Brew light** indicates the proper water temperature to help eliminate the guesswork in brewing.
- **Premium quality thermostat** has a full-length stainless steel sensing bulb that recognizes water temperature accurately and cycles less frequently.
- **One piece drawn stainless steel water tank** has a superior design for extended life.
- **Superior sprayhead design** spreads water over the coffee grounds, creating agitation and a floating action that completely saturates the coffee to capture the full, rich essence.

- Porcelain **enameled warmer plates** position decanters securely and, with no exposed screwheads, will not scratch or scrape decanters.
- High quality easy to clean **stainless steel construction**.

Accessories

Bloomfield offers a full line of coffee warmers, grinders and glass decanters.
