Specification Sheet

Short Form Specifications

Eagle Wire Shelving (EAGLEbrite® Zinc, Chrome, Valu-Master® Gray Epoxy, Valu-Gard® Green Epoxy, EAGLEgard® Green Epoxy, Stainless Steel), (Starter/Add-On) Unit, model _____ . Patented QuadTruss® design wire shelves, with numerically calibrated grooved posts in 1" increments, leveling feet, and tapered split sleeves.

four-shelf starter unit

five-shelf add-on unit

Options / Accessories

- Ledges
- Collar plugs
- Dividers
- Casters*
- Shelf markers
- Caster posts*

* Accessories to Starter Units only.

Design and Construction Features

- Patented QuadTruss® design (patent #5,390,803) makes Eagle shelves up to 25% stronger and provides a retaining ledge for increased storage stability and product retention.
- Assembly — Numerically calibrated grooved posts, tapered plastic split sleeves and shelf collars combine to make shelving assembly a simple two-step exercise: 1) snap the split sleeves onto a post over the number of your choice; and 2) slide a shelf collar over the split sleeves. A positive lock between shelf and post is created without the use of any tools.
- Open-wire construction promotes higher visibility, allows light to pass through the shelves, permits greater air circulation which helps reduce moisture and dust build-up, and increases the effectiveness of fire-suppression systems.
- Tapered split sleeves of high-temperature-resistant ABS plastic create a positive lock that becomes stronger as the load increases.
- Posts are numbered in increments of 1" (25mm) to ensure fast and level assembly.
- Leveling feet are provided to help compensate for uneven floor surfaces.
- The mat on an Eagle shelf utilizes a pincer-type design with the mat wire sandwiched between the two top truss wires, adding significant strength and distributing the entire load without stress and strain on the welds.
- Finishes available include EAGLEbrite® zinc, chrome, Valu-Master® gray epoxy, Valu-Gard® green epoxy, red epoxy, black epoxy, white epoxy, EAGLEgard® green epoxy (now with MICROGARD®*), and stainless steel finish.
- All epoxy finishes are approved for wet or dry applications.
- Custom colors also available – see your Price List for reference.

* MICROGARD® standard on all EAGLEgard® shelving.

MICROGARD® is an antimicrobial agent which contains built in protection to retard the growth of a broad range of bacteria, mold and mildew on the surface of the shelves that cause stains, odors and degradation.

Wire Shelving Starter Units and Add-On Units

To specify finish, add suffix (listed at right) to model number. Example: A4-74-1824C

“Z” (EAGLEbrite® zinc)

“C” (chrome)

“V” (Valu-Master® gray epoxy)

“E” (EAGLEgard® green epoxy with MICROGARD®)

“VG” (Valu-Gard® green epoxy)

“R” (red epoxy)

“BL” (black epoxy)

“W” (white epoxy)

“S” (stainless steel)

Starter Units

- Comes with four or five wire shelves and four posts.
- Four-shelf units available in 63" and 74" (1600 and 1880mm) post heights.
- Five-shelf units available in 74" and 86" (1880 and 2184mm) post heights.
- Shipped knocked-down.
- 54" (1372mm) shelves available.
