

ADJ-NW & ADJ-NS ADJUSTABLE CUP DISPENSERS

Simple and fast adjustment of five stainless steel models will accurately dispense cups with rim diameters ranging in size from 2 5/8"–4 3/4".

To select the correct model dispenser please measure the top rim diameter of your cup and refer to the sizing chart on the right.

ADJ-NW Series Cup Dispensers are pull-type (gravity feed) and are intended for use in vertical or angled mounting positions.

ADJ-NS Series Cup Dispensers are spring-loaded and are intended for use in horizontal or vertical mounting positions.

Dispensers are shipped with two sets of stainless steel mounting brackets and can be mounted to a wall or surface. Countertop stands are also available (see page 38). All models are NSF listed.
