Designed Smart

Developed for high output in tight spaces!

- The AT Express™ generates over 300 slices of toast per hour.
- Designed to fit into tight space areas on counters.
- Toasters have extended super feeder and warming area to allow for high volume production.
- Unique warming area keeps toast at the perfect temperature until you are ready to serve.

Maximum Versatility!

- A variable speed control for the conveyor produces optimum results in toasting color and texture.
- Ability to turn off either the top or bottom element for one-sided toasting.
- Able to handle a variety of breads, bagels or muffins.

Safest Toaster in the Industry!

- Protects your employees with "Cool Touch" exteriors...both sides and top surfaces.

Easy to Maintain and Service!

- Conveyors and crumb trays are easily accessible and simple to clean.
- Removable Side panel allows easy access for service.

Cool Touch Feature

- "Cool Touch" feature protects employees from burns by keeping exteriors at "Xtreme Cool" temperatures
- At-Express air circulation system keeps cooling air circulating in toaster, even after the power switch is turned off protecting components and exteriors from excessive residual heat.

Built Solid

Built to Last

- Stainless Steel construction protects against kitchen wear and tear and rust.
- Metal sheathed heating elements offer enhanced durability and consumer safety vs. quartz tube heating elements.
- High temperature insulated wire is used for long life.
- High temperature bearing never require lubrication.

AT EXPRESS RADIANT CONVEYOR TOASTER

APW Wyott Design Features

- All stainless steel construction.
- Small footprint (13 1/2" x 17 2/11") fits into tight counter space.
