Model ARGF-8

Comes with optional casters

Power-Plus

30,000 BTU/hr. Burners

Another industry first, The **Culinary Series** Green Flame Range from American Range, is designed to satisfy every requirement of today's demanding commercial cooking applications. Not only is this range suitable for commercial installation but it is especially useful for firehouses, community centers, retirement homes and churches eliminating tremendous cost and enhancing safety for any skill level of operator.

The all stainless steel external body is a standard fixture for long service life and easy cleaning. Safety enhanced electric on-demand ignition is just one of the latest design and manufacturing technologies incorporated in this range to give you the best energy efficiency, quality and dependability.

Quality, dependability and customer satisfaction make American Range the **brand of choice among professional chefs and restaurateurs worldwide.**
