Add two letter code to model number for door preference

Door options: GG- Two glass doors, GR- Glass door, right, GL- Glass door, left

Installation Instructions:

Ovens must be installed in accordance with local codes or in their absence with the

- 1. National Fuel Gas Code: ANSI Z223.1; CAN/CGA-B149.1 Natural Fuel and Propane Installation Code, as applicable. Compliance with codes is the responsibility of the Owner and Installer.
- 2. An adequate ventilation system is required. Refer to National Fire Protection Association Standard No. 96, Standard for Ventilation Control and Fire Protection of Commercial Cooking Operations
- 3. This appliance is intended for commercial use. NOT intended for Residential Use.
- 4. Specify installation elevation if above 2000 feet (610m)
- 5. Please specify gas type when ordering
- GAS INLET SIZE (All Models): One 3/4" NPT gas connections provided at rear. One 3/4" NPT gas pressure regulators are provided and must be installed (by others) when unit is connected to gas supply.
- COMBUSTIBLE WALL CLEARANCES: For use only on non-combustible floors. Legs or casters are required, or 2" (51) overhang is required when curb mounted. Clearance from non-combustible walls is 0". When unit is placed next to combustible walls, clearances must exceed 12" (305) from sides, and 4" (102) from rear.
