Digital Electronic Controller (Electric Models)

Adjustable Legs

### Durable Construction

The B121 is built starting with an integral **16-gauge stainless steel frame**. The interior is made of Armco type 1, 20-gauge, aluminized steel all sitting on a **18-gauge, aluminized base**. The B121 come standard with **20-gauge, stainless steel front, sides and top**.

### Energy Efficiency

The B121 is equipped with two **1,000 watt elements** and comes standard as a 110V unit. With our unique interior, deck design and heavy insulation, the B121 **will idle with efficiency and recover upon demand**. The B121 is also available as a 220V unit, which has 5,000 watts @240V and will recover better at peak times.

### Versatility and Capacity

The B121 sports a large **26.5"x18.75"x5" compartment** which will hold two 12" pizzas, one 16" pizza, but better yet, will hold an 18"x26" bun pan of just about anything you might want to cook. Hors d'oeuvres, sandwiches, breakfast rolls, you name it... the B121 can cook it! Now that's true versatility.

### B121 STAND

- Sideliners hold racks or stones
- Optional casters (shown)
- Optional racks (3)
- 30" (76.2cm) x 22.625" (57.5cm) x 26.25" (66.5cm)

### Design Plus

The B121 has the **controls located in the air-conditioned lower front for ease of operation, space savings and long life**. The door on the B121 has no springs, latches or breakable brackets for **years of trouble-free life**.
