

Model: BT482

Bluetooth® Dual Probe Thermometer & Timer

-40 to +482°F/-40 to +250°C;
10 timers count 24 hours by minutes & seconds

For professional chefs who want both control and flexibility, the CDN Bluetooth® Dual Probe Thermometer & Timer (BT482) provides remote control and monitoring of cooking temperatures and times on their iOS and Android mobile devices in the most convenient and personal way.

The Bluetooth® Dual Probe Thermometer & Timer features dual 304 stainless steel waterproof probes and up to ten timers for maximum flexibility. This probe is the first in the CDN line to utilize Bluetooth® technology to connect to your mobile device remotely and an anticipation time estimate for when the food will be cooked to perfection. With cooking history, images and personal notes, the app allows the chef to share their creations through social networks or email.
