

## Kitchen Measurement Tools

CDN expands its line of infrared thermometers with the powerhouse ProAccurate® Infrared Gun/Thermocouple Thermometer. Combining non-contact infrared and thermocouple technologies in a single innovative tool to ensure the best culinary results and food safety.

In addition to quick scanning of surface temperatures, this versatile thermometer features Minimum, Maximum, and Lock modes for scanning multiple targets over time. Integrated HACCP color-coded backlighting instantly shows if temperatures are within HACCP guidelines for safe food temperatures. Multi-faceted, it also offers 8-beam target illumination, battery status indication and a flip down thin tip thermocouple probe for measuring internal temperatures
