

EU2SYS-72 SERIES

HEATED DISPLAY SYSTEMS

FRONT VIEW SHOWN WITH OPTIONAL CASTERS

ecosmart®

- HALO HEAT ... a controlled, uniform heat source that gently holds and surrounds food for better appearance, taste, and longer holding life.
- Holds and displays hot food fresh and moist for hours without adding water.
- Expandable system to meet your specific requirements.

• ED2 STYLE HOT DISPLAY CASE

- Curved glass styling.
- Displays hot food without condensation on glass.
- Protected with a environmentally friendly bumper, made of 93% pre-consumer polycarbonate waste and is 100% recyclable.
- Tempered sliding glass doors reflect heat back into the products and mirror the display to enhance merchandising effect.
- Holds a full range of standard (gastronorm) pan sizes, full-size or half-size sheet pans.
- Standard stainless steel front and black painted end panels.
- Thermostatically controlled heat source radiates from the base of the display case in multiple heat zones.
- Overhead light zones with shatterproof coated bulbs.

• DECORATOR BASE

- Designed to accommodate your choice of equipment (750-TH-II, 750-S, 500-2D) or optional shelf.
- Stainless steel, distinctively framed in black as standard, and brushed stainless or custom color as alternate choices.

• SELF-SERVICE HOT DISPLAY

- Customer self-service opening is available on right side, left side, or across the full length of case.
- Front mounted heat-guard provides customer protection.

The display case is constructed of 18 gauge, non-magnetic stainless steel. A curved, tempered glass front encloses the display case and can be lifted to a 90 degree angle for easy cleaning. Removable, sliding glass doors on the operator side are included. Sliding door tracks have a "clean sweep" cutout allowing for easy cleaning and crumb removal. Framed end clear glass with rubber gasket material protects glass edges from chipping and breakage. The base is divided into two (2) individually managed heat zones with each zone controlled by a separate thermostat with a range of 1 through 10 and heat-on indicator light. Overhead lights are controlled by ON/OFF switches in two (2) light zones. Two (2) 125V plug outlets are available as an option on 120/208-240V units only. Decorator base includes one set of leveling bolts.

plug outlets are available a	s an option on 120/208-240V u	nits only. Decorator base in	ncludes one set of leveling bolts.

HEATED DISPLAY SYSTEMS

INSTALLATION REQUIREMENTS

Display case must be installed level. The display case must not be installed in any area where it may be affected by steam, grease, dripping water, high temperatures, or any other severely adverse conditions.

Do not install a heated display case near a cold air source such as a freezer, air conditioning vents, or in any area where outside air fluctuation can affect performance.
