

# F-49 FRYER

Wells Fryer F-49 is one of the most durable and easy-to-use fryers in the industry. A swing-up element allows the frypot to be easily removed for cleaning. The low watt density heating element provides for extended oil life. Fry two different products at the same time using the two separate half-size fry baskets.

**Features**

- Two half-size, rear-hanging, interchangeable fry baskets are included with every fryer.
- Swing-up element, located below the baskets, is heavy-duty stainless steel with a low watt density.
- Element control housing has a spring-loaded support rod to secure elements when in raised position.
- Deep-drawn, removable container is made of nickel-plated steel and can hold up to fifteen pounds of oil.
- A manual reset safety thermostat will shut off the heating element power if an over-temperature condition is reached. A red signal light will indicate the over-temperature condition.
- The F-49 Fryer is Underwriters Laboratories, Inc. LISTED and meets the National Sanitation Foundation and Canadian standards.
- A one-year warranty against defects covers parts and labor.

**Specifications**

<b>Overall Dimensions:</b>	<b>Inches</b>	<b>MM</b>
Width	14 3/4	375
Depth	23 9/16	598
Height (Incl. 4" legs)	16 3/8	416
<b>Shortening Capacity:</b>	<b>Lbs.</b>	<b>KG</b>
F-49	15	7
<b>Temperature Range:</b>	<b>Fahrenheit</b>	<b>Celsius</b>
F-49	275° to 375°	135° to 191°
<b>Pre-Heat Time to 350°F:</b>		<b>8 minutes</b>
<b>Watts Per Hour to Maintain 350°F:</b>		<b>445</b>
