* (S) Stainless steel units / (G) Glass door units.

Specifications Kegeators

Construction

Heavy duty stainless steel top, 18 gauge. Black vinyl front, sides and back. (S) models have stainless steel front, sides and back. Interior constructed of heavy duty galvanized steel walls with coved corner NSF approved stainless steel floor.

Door is comprised of heavy duty black vinyl steel. (S) Models are stainless steel. (G) Models are a dual pane glass with black frame, (SG) models are a dual pane glass with aluminum frame. Provided with door locks, magnetic door gaskets, removable without tools. Door openings have a plastic breaker strips to retard condensate formation. Unit comes complete with a 1-1/2" Ecomate CFC-Free polyurethane insulation, foamed in

place.

Refrigeration system

Self-contained capillary tube system using environmentally friendly (CFC Free) R-134a refrigerant. Rear breathing compressor. Evaporator coil is mounted to interior top of the unit. Large fan motor and fan blades for greater air flow.

Automatic condensate evaporator, no drain connection required. Evaporator condensate has been plumbed to a condensate pan located in the compressor housing. Access for the condensing unit behind the back grill, slides out for easy cleaning and maintenance.

Cabinets are designed to maintain temperatures between 33° F to 38° F in the

interior cabinet.

Lights

Interior LED light underneath the mullion (FBB models only).

Others

Unit is supplied standard with an 8' cord and plug (Nema 5-15p).

Warranty

3 year parts and labor warranty plus 2 additional year compressor warranty. (Continental U.S.A. & Canada only).
