- NSF Certification

Details

Keep food and other sensitive products off the floor with a minimal amount of floor space with these aluminum dunnage racks! Since they are made of strong and lightweight aluminum, there are no worries with rust or corrosion. The heavy-duty, welded construction features a square tubular design to securely hold up to 2100 lbs. of product Available in 8" or 12" off the ground which keeps you in compliance with sanitary health codes. Great for walk-ins and bulk dry storage.
