

HBL5W1 CVAP® HOLD & SERVE DRAWER

EXCLUSIVE TECHNOLOGY

Exclusive Controlled Vapor technology (U.S. patent # 5,494,690) establishes that the water vapor content in the drawer is the same as that of the food. This unique process controls moisture evaporation and saturation, so crisp foods stay crisp, and moist foods stay moist.

EASY-TO-USE CONTROLS

Computerized processor controls WATER TEMPERATURE from off/100 to 210° F (37 to 98° C) for precise food temperature control and AIR TEMPERATURE from 100 to 210° F (37 to 98° C) for food texture control.

DURABLE

Built to last with quality craftsmanship, high grade stainless steel construction, and full perimeter insulation.

BETTER CONTROL OF FOOD QUALITY

Features radial fan for improved food quality with frequent drawer openings. Count down timer allows timing of eight different products for inventory control. To cancel timer, press channel key once then, within 5 seconds, press channel key twice more. Never needs field calibration and has a low water detection alarm.

INDUSTRY COMPLIANT

CVap equipment complies with domestic and international requirements such as UL, C-UL, UL Sanitation, CE, MEA, and others.
