Designed Smart

Gas counter top griddles with a low profile design that are only 13 1/8" tall to grilling surface making them ideal for use on refrigerated cabinets or counter tops. The Heavy duty Series Griddles are designed to mix and match with the Heavy Duty CharBroilers and Heavy Duty counter top ranges.

The griddle plate is 1" thick (25.4mm) and 24" deep (610mm), polished, cold-rolled steel. Six widths are available from 24" to 72" in one foot increments. The Heavy Duty Series features high-performance, energy-efficient, 33,000 BTUH burners located every 12" with individual, operator-controlled valves and are available in two control types: manual or thermostatic.

The interior combustion chamber is heavy-duty heat resistant 11-and 16-gauge steel, and is hand-welded for strength and durability. Standard features include stainless and aluminized steel exterior, spatula-width front grease trough, stainless steel landing ledge and large capacity, slide-out grease pan. Additional features include individual 3/4" NPT rear gas connection in natural or LP gas, pressure regulator and 4" (102mm) NSF approved legs with adjustable bullet feet. Stainless steel splash guards are continuously welded to the griddle plates.

Model HMG-2424 Heavy Duty Manual Griddle

Options & Accessories

- Stainless steel front-mounted work deck with or without sauce pan cut-outs
- Condiment rail
- Gas connector hoses
- Equipment stands with or without casters
