ULTRASPEC™ SERIES

EXTRA WIDE REACH-IN WARMING CABINETS

ULTRASPEC™ WARMER | **V-TEMP CONTROL™**

STANDARD FEATURES
• V-TEMP™ Electronic Control System
• Adjustable Electronic Temp Control from 80°F to 180°F
• Built-in, Adjustable Humidity Control Vent
• Safety Shielded Strip Type Heating Elements
• Externally Mounted Blower Maintains Even Temperatures
• Stainless Steel Doorjamb(s)
• Foamed-in-Place Polyurethane Insulation
• Heavy Duty Cylinder Locks
• Self-Closing Doors with 120° Hold Open Feature
• Cam-Lift Hinges, Guaranteed for Life
• Ergonomically Correct Door Handles, Guaranteed for Life
• S, SA Series have 6" High, Adjustable Stainless Steel Legs
• Proximity Door Switch Activates Interior Lighting
• One Piece, Snap-In Magnetic Door Gasket(s)
• Stainless Steel Interior Door Liner
• Three (3) Chrome Plated Wire Shelves per Cabinet Section

OPTIONS AND ACCESSORIES
• Full and Half-Size Glass Doors
• Change Door Swing
• Correctional Facilities Options
• Stainless Steel Case Back and Shroud
• Stainless Steel Shelves
• 6" Overall Height Casters (Set of 4)
• Exterior Laminate Décor
• Adjustable Tray and Pan Slides
• Optional Voltages (single section only)
• Cord and Plug
• Two (2) Year Service Warranty

1 Year Parts and Labor Warranty • 2 Year V-TEMP™ Control Warranty

We reserve the right to change specifications and product design without notice. Such revisions do not entitle the buyer to corresponding changes, improvements, additions or replacements for previously purchased equipment.

Dimensional tolerances +/- ¼". Metric dimensions (MM)

CABINET CONSTRUCTION
The cabinet front and doors are constructed of heavy gauge, polished stainless steel to maintain an attractive appearance after years of heavy use. Polyurethane foam insulation throughout ensures the ultimate in energy efficiency.

DOOR CONSTRUCTION
The doors are heavy gauge, polished stainless steel with a stainless steel interior liner. Each door is provided with a cylinder lock and ergonomically correct vertical handle. The door hinges are self-closing and have a hold-open feature at 120° which facilitates product loading. Proximity switches energize the recessed interior incandescent lighting when the door is opened.

HEATING SYSTEM
The safety shielded, "strip type" heaters located at the bottom of the cabinet interior are precisely controlled by the V-TEMP™ electronic control with a temperature range from 80°F to 180°F. An externally mounted blower system ensures even temperatures throughout the cabinet interior. A built-in, adjustable humidity control vent allows the operator to maintain a moist or more dry environment.

INTERIOR STORAGE ARRANGEMENTS
Each cabinet section is provided with three (3) heavy-duty, chrome plated wire shelves. The shelves are adjustable in one inch increments. A wide door opening allows for the use of a variety of optional pan slide configurations including 18" x 26" and 12" x 20" pans.

V-TEMP™ CONTROL SYSTEM
The easy to use V-TEMP™ Control is provided standard with a two year parts and labor warranty. This durable, water resistant microprocessor monitors and controls the entire temperature maintenance process. It includes an ON/OFF switch located on the control face, interior light switch, LED temperature indicator in °C or° F, a HI/LO audio/visual temperature alarm , and a door ajar alarm. The control has a set point memory. Upon start up, the unit will warm up to the last temperature set point. A manager's "lock-out" feature is provided to safeguard pre-determined control settings.

CHARACTERISTICS	1 SECTION	2 SECTION
DIMENSIONAL DATA		
Capacity Net (cubic ft.)	24.4	52.0
Width, Overall (in.)	31 ¼	58 ⅜
