Features

- Front breathing air flow design allows for 1" of rear wall clearance
- Stainless steel exterior front, sides, and top with stainless steel interior sides, back, and floor
- Engineered to maintain NSF-7 temperatures in 100°F ambient
- Environmentally friendly R290 hydrocarbon refrigerant
- Cabinet and doors are insulated with 2" CFC free. foamed in place polyurethane
- Exclusive "stepped" door design to protect door gasket
- Spring assisted self-closing doors with stay open feature
- · Extruded aluminum flush mount door handle
- Field reversible doors with magnetic snap-in gaskets
- Magnetic door gaskets are easily removable for cleaning
- Removable air filter for easy cleaning
- Hot gas condensate removal
- Mullion heaters for reduced condensation
- · E-coated evaporator coil
- Digital temperature display
- Two epoxy coated shelves per section is standard
- Anodized aluminum shelf supports adjustable in 1/2" increments
- Shelves hold a full- size sheet pan & 120 lbs. capacity
- Standard with 4" casters (three with brakes)
- 10 ft. cord and plug

6" Casters (HS-5036, set of 4)

Overshelves (HS-5228 double, need 2) Foot pedal kit (HS-5555, Lft hinge) Addtl. Epoxy Shelves (HS-5151, 1pk) Foot pedal kit (HS-5556, Rt hinge) Addtl. Stainless Shelves (HS-5153,1pk)

COMPRESSOR Valid in United States, Canada, Puerto Rico and U.S. Territories. *Please visit hoshizakiamerica.com/support/warranty/ for more information.

ABOR

SEVEN

If GFCI is required, a GFCI breaker MUST be used in lieu of GFCI receptacle

Hoshizaki reserves the right to change specifications without notice.

PLAN VIEW

FRONT VIEW

Cabinet Construction

The exterior cabinet top, front, and sides, are constructed of high quality stainless steel. The exterior back and bottom are constructed of coated steel. The cabinet interior features stainless steel back, sides, and floor with an ABS top. Two heavy duty epoxy coated shelves per section is standard. Mounted on anodized aluminum pilasters the shelves are adjustable in 1/2" increments. Cabinet walls are insulated with 2" CFC free, foamed in place polyurethane. 4" polyolefin, stem casters (three with brakes) are standard.

Door Construction

Doors are constructed of high grade stainless steel exterior with an ABS interior liner and are insulated with 2" CFC free, foamed in place polyurethane. Hoshizaki's exclusive "stepped" design protects the gasket while product is removed from the cabinet. Doors are provided with a one piece, extruded aluminum, flush mount handle. Spring assisted self-closing doors are equipped with a stay open feature past 90 degrees. Snap-in magnetic door gaskets are durable and easily removed for cleaning. Field reversible door hinging is standard.

Refrigeration System

The high efficiency refrigeration system is self-contained with an E-coated evaporator for extended life. Condensate removal is accomplished with an energy efficient non-electric evaporation system. A capillary tube controls the flow of environmentally friendly R290 refrigerant through the evaporator. Refrigeration system utilizes an off-cycle defrost to eliminate any ice on the evaporator coil. 115 volt units are equipped with a ten foot cord and plug (20.0 amps or less).
