

MVP HYDRA

RELY ON SYNESSO

The MVP Hydra provides unparalleled control throughout the espresso extraction process. Start with Synesso's MVP technology, add a pump and motor per group and each becomes a completely independent brew system. Baristas can run varying pressures on any group, simultaneously, and without interruption. The 4 Stage Pressure Ramping provides the highest level of flexibility and engagement for your espresso recipes. Adjust and fine tune at each stage to unlock the flavors and subtleties available in specialty coffee today.
