Jet Air Plus Oven Series

In order to guarantee the **highest level of performance** for all oven users, Doyon is proud to introduce the Jet Air Plus ovens series.

The Jet Air reversible ventilation system permits **faster and more even cooking and baking**, allowing you to work without having to turn pans during baking or cooking. It translates in **time and energy savings**.

The manual one *shot steam* injection is mainly used for all the bake goods giving the golden and crispy crusts, where as the constant *pulse steam* injection is used for vegetables, seafood, fish and meat products. The combination of ventilation and constant pulse steam injection results in less weight lost. The steam replaces the natural juice evaporation by the ventilation and heat. Therefore, you will yield more of your products, which means **more profits**.

You will obtain products of all kind with a **better presentation**, with **more flavor**, and **ready in less time**. How is it possible? Steam permits a **faster heat transfer without making them dry**. Our boilerless steam injection system assures a **minimum maintenance cost**.

The all new Jet Air Plus **all-in-one** gives **flexibility at an affordable price**. Your recipe programming and/or your meat probe will result in **superior and constant results** no matter who is operating it.

Easy and efficient; a baking chamber cavity completely sealed, reversible fan, one shot or constant pulse steam injection, manual or recipe mode, optional meat probe. This is your best buy for **efficiency and profitability**.

OVEN FEATURING

- Manual mode and user friendly programmable control up to 99 recipes
- Up to 10 steps per recipe
- Temperature range from 150 °F to 500 °F (66 °C to 260 °C)
- Digital temperature display adjustable in °C or °F
- Economy mode
- Patented reversing fan system
- Fan delay
- Unique shot and pulse steam injection
- Cool touch door with dual thermal wide view glass windows, swings open for cleaning
- 3/4" NPT drain supplied with webbed cap and plug
- Door locking position at 120°
- Door handle for one-handed operation
- Door with "swing close" function
- Side loading pans
- Halogen lights
- All-around insulation
- Zero clearance side and back, 4" bottom and 12" top
- Press-fit removable door gasket for easy replacement
- Lift up removable side racks
- Soft cold water connection facility located at the back of the unit
- Height adjustable legs for tabletop units
- Stainless steel inside and outside
- Low-noise high-performance ½ HP motor
- Cord and plug connection
- One year parts and labour limited warranty

OPTIONAL

- Computer interface communication kit for storage of recipe programs on PC and laptop
- Meat probe
- Stainless steel stand on swivel casters (2 locking)
- Stainless steel legs with adjustable feet:
 - Swivel casters (2 locking) • Stainless steel shelf

5 pans cooking.
capacity

VERSATILITY

Bread, rolls, buns, crusty breads, pastries, muffins, cookies, cakes, pies, bagels, croissants, sours and ryes, pizzas, hamburgers, bacon, game hens, chicken, turkey, multimeal prep.
