PD Series, Remote & Self-Contained Open Produce Merchandisers

"While Everyone Else Says There Optional..."

...only Marc offers these kind of features **STANDARD!**

- Decorator colored sides of your choice from Marc's enormous inventory.
- Night Shades lock in your refrigeration overnight.
- Full length mirror to enhance product visibility.
- Freon 22 valve installed on remote and self-contained models.
- Dial thermometer for accurate temperature readings.
- Dry storage bins maximizing total storage capacity.
- Enhanced product lighting from top canopy and under lower level of wire baskets with safety sleeves.
- Two levels of wire baskets in long lasting white epoxy.
- Product dividers for wire baskets and main deck.
- Drain is 1" pipe thread — for easy cleaning (drain connection required in field, remote and self-contained models).
- Front bumper — made of high density PVC for shopping cart impact.
- Side panels have 1/4" plexiglass for maximum visibility and safety.
- Insulation is full density, solid core urethane.
- Automatic time clocks are standard for self-contained models.
- Mirror finish stainless steel trim, caps, moulding and main deck.

NOTE: Designed for use in locations with air conditioning, where temperature and relative humidity DO NOT exceed 75°F and 55% R.H.

We reserve the right to change specifications without notice.

MODEL	LENGTH	HEIGHT	DEPTH	UNIT INSTALLED	UNIT RECOMMENDED (not included)	STORAGE BINS	ELECTRICAL DATA	PRODUCT DIVIDERS		APPROX. SHIPPING WEIGHT
