

Pizza Station
Models:
PS-316, PS-314

PS-316

PS-314

The Roundup® Pizza Station combines a self-contained oven to bake refrigerated or frozen pizzas, with a rotating display rack in a heated and lighted display area.

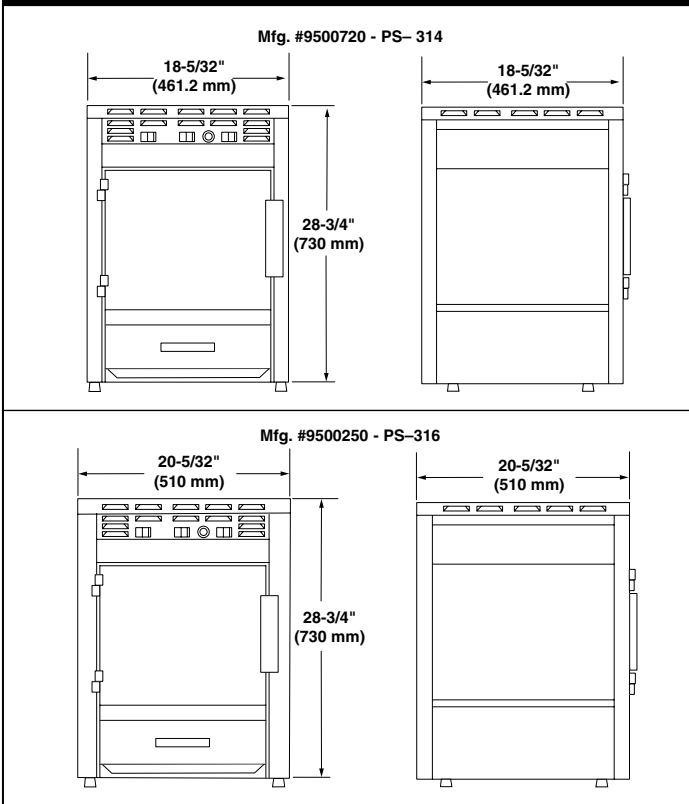

The oven is thermostatically controlled and does not require setting or adjustment.

The display area incorporates a thermostatically controlled heating element at the bottom of the display area and is illuminated by four incandescent bulbs located in the cabinet ceiling.

Features:

- Oven with Adjustable Backing Rack
- Full View Design
- Crumb Tray
- Tempered Glass
- Rotating Display of Product
- Stainless Steel Construction for Long Life
