

Astra

Automatic Steamer

The Most Reliable Machine Of Its Kind

UL197 NSF-4 CSA C22.2 No. 109

ASTRA AUTOMATIC STEAMER

Astra's Automatic Steamer was developed specifically for the juice and smoothie bar industries.

This AUTOMATIC STEAMER features a thermocoupled, stainless steel steam wand that automatically controls the temperature of the product, which is digitally displayed on the front panel. The automatic steamer is produced with a 7-liter nickel-plated boiler and a 4,800 watt heating element which enables the steamer to continuously produce steam WITHOUT EVER running out. The automatic steamer also features a toggle switch for manual operation of each steam wand.

TECHNICAL SPECIFICATIONS

	Boiler (Liters)	Power (Volts / Amps)	Heater (Watts)	Net Weight (Pounds)	Gross Wt. (Pounds)	Height (In)	Depth (In)	Width (In)
Automatic Steamer	7.0	220 / 30	4,800	80	95	20.0	20.5	13
Pourover Steamer	4.2	110 / 20	1,800	70	85	16.5	20.5	13
Standard Steamer	4.2	110 / 20	1,800	70	85	16.5	20.5	13
Standard Steamer	4.2	220 / 20	2,400	70	85	16.5	20.5	13
Standard Steamer	7.0	220 / 30	4,800	70	85	16.5	20.5	13
