

# BLUE AIR ; Clean and Cool Breeze

## Solid Door Reach-in Refrigerator/Freezer

### Features/Benefits

**-Stainless Steel Exterior and Interior**

The excellent quality of stainless steel helps minimize the dents, scratch, and rust; however it maximizes the tensile, and bright smooth sheen. In Addition our stainless steel offers long-life durability, and easy maintenance.

**-Oversized Refrigeration Structure**

Blue Air refrigerators/freezers' compressor is bigger than most competitive units balanced with a larger evaporator coil. The compressor motor leads to a longer-life with out having to replace it; allowing the units to keep the right temperature to maintain food fresh with original appearance under minimum compressor running time.

**-Digital Total Motoring System (freezers only)**

Offering automatic door alarm system, easy temperature adjusting, quick freezing, and simple controlling defrost cycle. A self-manual defrosts, setting ideal temperature range, representing the status of the compressor and evaporator fan.

**-Bottom Mount Compressor**

The bottom mount compressor structure is placed in coolest area to provide easy and quick service that saves run time. One of the advantages that this unit has to offer is that the food sets higher and it provides a physically healthier environment; for example no bending over exerting your self, etc...

**-Fabric Condensation Kit**

It simply absorbs the water from the defroster and evaporates it by nature and the air from the condensing fan.

**-Field Door Reversible with Durable Easily Removable Door Gasket**

Single door units can be easily reversed in the field; equipped with long-lasting snap-out magnetic gasket, (tested over 1.2 million times)

**-Recessed Door Handles**

The door handles that we provide will prevent shipping damage, handle breakage, combined with a smooth elegant look for customer satisfaction.

**-CFC-free Foamed-in-place Polyurethane with High Density**

With the extra density and close cell you receive energy efficiency.

**-Self - contained System**

Simple installation with no plumbing job comes with a 9.8 feet long cord.

**-4" Swivel Casters Standard**

Heavy-duty casters built strong, tested NSF standard equipped with two front lock caster.

**-Door Locks**

Each door is equipped with individual' s key locks.

**-Rounded Corners**

Captures elegant design, for a stronger look, and safety features.

**-Door stop for Loading and Unloading**

Doors remain open at 110° and self-closing at 95° .
