## FEATURES AND BENEFITS

- >> CFC free polyurethane with 1-3/5 inches foamed for durability and energy saving efficiency.
- >> Cabinet exterior is available in black or white and is made of the best quality coated steel.
- >> Refrigerators systems are equipped with interior vertical fluorescent lights.
- >> Refrigerators contain standard horizontal light system.
- >> Standard adjustable white epoxy coated wire shelves.
- >> Double pane glass door system with a layers of patented transparent, thermal insulation film applied between the layers of glass provides superior insulation without the weight of a triple glass system. Less weight contributes to less wear of the door rollers and less overall door maintenance.
- >> Refrigeration systems are formatted to function at 35-38°F
- >> Interior is composed of high quality white coated steel.
- >> For appearance and safety, the EGR48 is constructed with 15mm radius rounded corners.
- >> Advertisement panel designed with back lit fluorescent lighting.
- >> Removable doors & rails for easy and safe cleaning.
- >> Refrigeration units use R134A refrigerant to maintain a healthy ozone.
- >> Adjustable legs for leveling.
