

F-856 BUILT-IN FRYER

F-856 BUILT-IN FRYER

Wells F-856 Built-in Fryer is one of the most durable and versatile fryers in the industry. Swing-up elements allow the fry pots to be easily removed for cleaning, while the elements' low-watt density provides extended oil life. Fry two separate foods at the same time using the individual fry pots. The built-in Safety Test System enables periodic checks of the temperature-limiting thermostat.

Features

- **Swing-up elements**, located below the baskets, allow easy removal of the fry pots for cleaning. Elements are heavy-duty stainless steel with low watt density for longer oil life.
- **Element control housings** have a spring-loaded support rod to secure elements when in a raised position.
- **Safety Test System controls** are recessed in a one-piece, drawn, remote stainless steel panel.
- **Positive-off thermostats** control the elements, allowing for adjustable and more consistent temperatures. Signal lights indicate that the heating elements are energized.
- **Deep-drawn, removable fry pots** are made of nickel-plated steel and can hold up to fifteen pounds of oil each.
- **A manual reset safety thermostat** will shut off the heating element power and illuminate the signal light if an over-temperature condition is reached.
- **A terminal block** is provided for field wiring connection to the main power supply.
- **An auxiliary terminal block** allows connection to an external flame sensor fire suppression system.
- The F-856 is provided with a **Safety Test System** to enable periodic checks of the temperature-limiting thermostat.
- **Two full size, rear-hanging, interchangeable fry baskets** are provided and allow for product versatility.
- **Wellslok** allows for quick and easy installation in stainless steel countertops.
- The F-856 Fryer is **Underwriters Laboratories, Inc. recognized** and meets **NSF** International standards.
- **A one-year warranty** against defects covers parts and labor.

Specifications

Overall Dimensions:	Inches	MM
Width	24 13/16	630
Depth	23 9/16	598
Oil Capacity:	Lbs.	KG
F-856	30	14
Temperature Range:	Fahrenheit	Celsius
F-856	275° to 375°	135° to 191°
Pre-Heat Time to 350° F: 4 1/2 minutes		
Watts Per Hour to Maintain 350° F:		450
Typical Production:	Per Hour	
French Fries (2 oz. servings)	600	
Chicken (pounds)	40	
Weights:	Lbs.	KG
Installed	65	29
Shipping	77	35

Accessories / Options

- Basket, half-size (2 per fry pot), 20161
- Basket, full-size (1 per fry pot), 20162
- Crumb Cradle, 20690
- Fry Pot, replacement, 20169
- Fry Pot Cover, 21010

Export

The following model is available for export and meets the standards for **CE**:

- F-856EU, 380-415V, 3NAC, 11.1 KW
