*Where it all begins.
In your kitchen. In Nemco's
timeline of innovation.*

From the Spiral Fry™ in 1981
to the next original food
favorite of tomorrow, Nemco is
your leading source for fresh,
countertop food-prep ideas that:

Save incredible amounts of
labor / Virtually eliminate food
waste / Achieve impeccable
portion control / Yield with
remarkable consistency.

easy slicer vegetable slicer

Speed and Consistency . . . Unplugged

A true revolution in food prep, Nemco's Easy Slicer™ took the countertop stage as the first alternative to the electrical meat slicers so typically misused for cutting vegetables and fruit. After all, the only other option was a manual knife.

The electrical meat slicer was faster and automated, but expensive to maintain and off-limits to food-prep staff under 18. The knife was laborious and downright dangerous for the less experienced.

Quite simply, the Easy Slicer took the best of both worlds and made them better. Just as fast and even more precise, plus easier to clean than the meat slicer . . . safer and more consistent than a knife . . . the Easy Slicer still stands as Nemco's #1, most versatile and popular food-prep machine.

Easy Slicer™ Vegetable Slicer

Easy Slicer is the one slicer you need to make fast, easy work of most fruits and vegetables. Unique, adjustable, stainless-steel blade provides a full range of slicing options, from 1/16-inch to 1/2-inch in thickness, for extra versatility and convenience. Simply turn the thumbscrew control to lock in your setting on the easy-to-read calibrated gauge. Use with Nemco mounting base (sold separately) for a secure workstation, plus easy removal for cleaning and storage. Fixed blade units also available. Optional shredding plates fit all units.

Model #	Description	Replacement Blades
55200AN	Adjustable Cut	55135 (set of 2)
55200AN-4	1/8" Fixed Cut	55135 (set of 2)
55200AN-6	3/16" Fixed Cut	55135 (set of 2)
55200AN-8	1/4" Fixed Cut	55135 (set of 2)
55200AN-1	3/16" Shredder	55178
55200AN-2	5/16" Shredder	55179

Optional Accessories

Model #	Description
55257	Sharpening Stone
55263-1	3/16" Shredding Plates
55263-2	5/16" Shredding Plates
55816	Portable Base

Loading the Easy Slicer is a cinch. Just place your produce in the trough behind the blade, close the cover plate and go.

The sharpness and ease of rotation of the blade makes slicing a breeze, for super-fast, precisely consistent yield.

suggested uses

The perfect answer for uniform slicing of fresh vegetables and fruits for salad bars, sandwiches, pizza toppings and more.

Optional Shredding Plates—Shredding plates attach to the Easy Slicer in seconds

for quick, easy shredding of cabbage, cheese, carrots, potatoes and other fruits and vegetables. Or choose the Easy Shredder, our shredding-only model.

Portable Cutting Board Base—Maximize your counterspace with Nemco's portable, food-prep base, equipped with a mounting bracket that fits the Easy Slicer and a number of other Nemco food-prep products. The suction-cup feet provide incredible stability without damaging your countertop, and the entire unit is dishwasher safe.

easy tomato slicer 2

The Best Thing Since Sliced Tomatoes

Innovation being the hallmark of Nemco, even the most popular food equipment is never immune to design improvements. Nemco's Easy Tomato Slicer™ has been a breakthrough in fast, uniform tomato slicing, and has become a mainstay in commercial kitchens everywhere.

However, Nemco saw a need in the market for a simpler model that could deliver the same slicing precision, but with a faster,

easier method for changing the blades—particularly in the hands of younger, less experienced employees.

The result? Nemco's next generation, Easy Tomato Slicer 2™. And now, with a new, factory-pretensioned cartridge blade set, the 2 is winning over as many fans as its predecessor.

Easy Tomato Slicer 2™

Compact, efficient, easy to use and even easier to maintain, the new Easy Tomato Slicer 2 with its pretensioned cartridge blade assembly is more convenient than ever. The newly designed blade set stays properly aligned and tightened without the need to adjust it. The Easy Tomato Slicer 2 has an ergonomic handle, hand guards, self-lubricating track, rubber feet and a table stop like its predecessor, the Easy Tomato Slicer, a staple in foodservice kitchens. Accommodates a larger tomato than the original Easy Tomato Slicer. Scalloped blade options available.

Model #	Description	Replacement Blades
56600-1	3/16" Slice	566-1 (14 blades)
56600-2	1/4" Slice	566-2 (11 blades)
56600-3	3/8" Slice	566-3 (7 blades)

Note: See price list for scalloped blade ordering information.

Easy Tomato Slicer™

Save time, labor and valuable work space with the original Easy Tomato Slicer—still an immensely popular item for its incredibly compact design that is even shorter and narrower than the 2 model. Its unique self-lubricating track material alleviates misalignment problems that can cause nicks and broken blades. Vertical handle and protective guards improve user comfort and safety. Cleans up quickly and easily. Scalloped blade options available.

Model #	Description	Replacement Blades
55600-1	3/16" Slice	466-1 (13 blades)
55600-2	1/4" Slice	466-2 (10 blades)
55600-3	3/8" Slice	466-3 (7 blades)
55600-7	7/32" Slice	466-7 (11 blades)
55874-2	Easy Scooper™ Stem Remover, 2-pack	—

Note: See price list for scalloped blade ordering information.

Roma Tomato Slicer **NEW!**

Need perfectly sliced Roma tomatoes super fast? No problem. The Roma Tomato slicer is designed to fit the unconventionally oblong roma tomato. It incorporates super-sharp, stainless-steel scalloped blades to pierce the tomato skin first, on the way to finishing a smooth, clean slice. The blades are pretensioned inside a cartridge-blade assembly, to maintain precise spacing that ensures a consistently uniform slice and prolongs blade life. For cleaning or timely replacement, the blade assembly is easily removed with the simple pull of two pins.

Model #	Description	Replacement Blades
56610-1	3/16" Slice	567-1 (15 blades)
56610-2	1/4" Slice	567-2 (11 blades)

suggested uses

This is a must-have if you like to keep fresh tomatoes on hand for your burgers, sandwiches, salads, salad bars and condiment trays. It's great for slicing strawberries and mushrooms too.

Blade Assemblies

Easy Scooper™—The essential tomato-prep tool. Removes stems with just one motion!

easy chopper 3

A Dream in Color

As if the Easy Chopper wasn't already saving kitchens time and money, along comes the 2, giving operators even more labor-cutting versatility (see page 11).

And, yet, in traditional Nemco style, the innovation just keeps coming.

Introducing—yes, that's right—the Easy Chopper 3, equipped with a spectrum of game-changing enhancements that further simplify the chopping chore.

Now, with color-coded blade assemblies and push blocks that make change-out super simple, a tougher nylon-resin push block that prolongs performance life, and a revolutionary push-block gasket that takes all the tediousness out of cleaning, the Chopper 3 moves food prep from daunting to dreamy.

Easy Chopper 3™ **NEW!**

Chopping just got faster and easier, yet again. And it all starts with the push block. In addition to being color-coded per the cut size of the corresponding blade-set—thus making destructive mismatches near impossible—each push block also features an intriguing ‘gasket’ innovation that makes cleaning as simple as pulling a tab. Like its Chopper 2 predecessor, the 3 includes a 4¼” cutting area for large vegetables, as well as a pretensioned slicing blade cartridge design, aluminum and stainless-steel construction, and a sturdy-wide base now high enough to sprawl a 1/6- or 1/3-size six-inch deep food pan, or a two-quart round pan.

Model #	Description	Blade/Holder Assembly	Replacement Blades
57500-1	¼"-Sq. Cut	57424-1 (26 blades)	536-1
57500-2	⅜"-Sq. Cut	57424-2 (18 blades)	536-2
57500-3	½"-Sq. Cut	57424-3 (12 blades)	536-3
57500-4	1"-Sq. Cut	57424-4 (8 blades)	536-4
57500-5	¼"-Thick Slice	57424-5	—
57500-6	⅜"-Thick Slice	57424-6	—
57500-7	½"-Thick Slice	57424-7	—

Optional Accessories

Model #	Description
57727-6W	6-Section Wedger Kit
57727-8W	8-Section Wedger Kit

suggested uses

The Easy Chopper 3 is the all-in-one heavy hitter for fast chopping, slicing and wedging of onions, tomatoes, potatoes, celery, peppers and other firm veggies. It's even the go-to for cutting fresh herbs, like cilantro, basil, parsley and more. It even cuts cooked chicken and ham! This reliable versatility, combined with its user-friendly fringe benefits, makes it the perfect tool for any high-speed kitchen.

Nemco's innovative push-block gaskets make cleaning a cinch. Just pull the gasket tabs to remove and clear away all the block's food debris in one simple motion.

The Chopper 3's interchangeable blade assemblies and push blocks are color coded to ensure fit, avoid destructive blade crashing.

Tall, sprawling base allows chopped produce to fall straight into a 1/6- or 1/3-size six-inch deep food pan, or a two-quart round pan

easy chopper 2

Because Big-Time Chopping Is Not a Game

Foodservice operators have often tried to get more cutting versatility out of their choppers. But many devices have not been able to stand up to the commercial kitchen environment to begin with. So, as the industry began trending toward cutting even larger vegetables and fruits, the writing was on the wall.

Nemco stepped forward and beefed up its famous—and extremely durable—Easy Chopper™ into a heftier 2 model.

Then, Nemco designed it to also double as a slicer (and triple as a wedger), giving high-volume kitchens the cutting versatility they wanted, plus the size and strength to make short work of the colossal veggies and fruits, without the tedious two-step of precutting.

Oh, yeah. And Nemco also threw in a wider, taller, open-leg base that could accommodate a 2-quart container positioned directly underneath the blades . . . just to make the staff even more efficient.

Easy Chopper 2™

Get the speed, efficiency and convenience of the Easy Chopper™ in a mightier model with a 4 1/4"-square cutting area, designed specifically for your BIG veggies! Now you can save labor by minimizing the need to pre-cut foods into smaller portions. But don't let the name fool you. This versatile tool chops, slices AND wedges! And, like the original version, it still features the weighted ergonomic handle. Plus, the slicing blades are factory pretensioned to remain properly aligned and tightened with no need for adjustment.

Model #	Description	Blade/Holder Assembly	Replacement Blades
56500-1	1/4"-Sq. Cut	56424-1 (26 blades)	536-1 (26 blades, unassembled)

suggested uses

For salsa, pizza toppings, drink garnishes and more. Chops, slices and dices onions, tomatoes, potatoes, celery, peppers and other firm veggies. Great for wedging citrus and other fruits too, when using the wedger kit.

Pretensioned Slicing Blade Assemblies

Chopping/Wedging Blade Assemblies

Easy Chopper™

Easy Chopper is the original, most effective answer for fast, easy, efficient chopping. Comfortable, weighted handle does most of the work for you to cut cleanly in one stroke. Super-sharp, stainless-steel, interchangeable cutting grids let you perform six operations, including wedging. Plus, the compact 3 1/2"-square cutting area maximizes counterspace.

Model #	Description	Blade /Holder Assembly	Replacement Blades

suggested uses

Use for fast, easy chopping, cutting and dicing of onions, tomatoes, potatoes, celery, peppers and other firm vegetables. Great for wedging citrus and other fruits, using the wedger kit.

Blade Assemblies

spiral fry potato cutter

The Very First Twist on Food Prep

In 1981, as a machine shop, Nemco took on the challenge of a local restaurant owner who had a tasty moneymaking idea.

Seeing how much his patrons enjoyed his unique, spiral-shaped French fries, the restaurateur knew he could generate a much bigger profit if he just had a lasting, commercial-grade tool that could take all the labor out of spiral cutting his potatoes.

Nemco responded with its very first food equipment product—the Spiral Fry™.

Today, foodservice equipment of all kinds is all Nemco makes, and operators everywhere are earning a huge gross margin on every delectably crispy serving of spiral fries.

NEW! Both the Spiral Fry and PowerKut produce all these varieties, including the newly popular Chip Twister!

Spiral Fry™ Potato Cutter

Easily turns potatoes into money! Simply load up to a 70-ct. potato, and turn the easy-action drive screw. No peeling is required, and it easily releases for fast reloading. Mounts securely on any flat surface for left- or right-handed operation. Removes easily for quick cleanup. Fine Cut Garnish Cutter makes attractive vegetable garnishes quickly and easily. The Ribbon Fry Cutter makes a great side for sandwiches.

PowerKut Food Cutter

For mounds and mounds of today's most appetizing fries and garnishes, ask for the PowerKut Spiral Fry™, Ribbon Fry™, Wavy Fry™, Chip Twister Fry or Fine Cut Garnish Cutter. Each cuts with the innovation of the original Spiral Fry, but much faster and easier—going through an entire potato in as little as two seconds. Operation is simple—load, apply steady, even pressure and move the carriage forward. Wipes clean. Holds a 60-ct. potato.

easy frykutter vegetable cutter

Getting a Handle on the Hot Potato

The foodservice industry would be hard pressed to find a menu item more popular—or more stubborn to cut—than the French fry potato.

So, when Nemco looked into developing a fry cutter, the food-

prep challenge of actually muscling a blade through a potato weighed heavily in the process.

Out of this emerged the appropriately named Easy FryKutter™, built with a number of user-driven features, such as the industry's only ergonomically designed "D" handle that reduces fatigue and increases productivity.

Now, regardless of the potato or the customer rush, when the pressure is on, nothing performs as reliably as Nemco—the durable and lasting workhorse that operates with a stroke of finesse.

Easy FryKutter™

Easy FryKutter uses an exclusive short throw handle and superior engineering to improve leverage for smooth, easy cutting or wedging in just one stroke. Works with natural body motion to eliminate awkward stretching and reduce operator fatigue. Built to last under the toughest day-to-day conditions. Slide-in, slide-out wall bracket fits the same mounting holes as most other machines.

Model #	Description	Blade/Holder Assembly	Replacement Blades
55450-1	1/4" Cut	55424-1	436-1 (set of 22)
55450-2	3/8" Cut	55424-2	436-2 (set of 16)

suggested uses

Cut potatoes for French fries and cut carrots and celery sticks. Chop onions, peppers, carrots and tomatoes. Wedge tomatoes for salads and potatoes for steak fries using the wedger kit. Great for wedging fruits too!

Blade Assemblies

Monster FryKutter™

Introducing the first potato-cutting tool that just eats up the massive "monster" potatoes, delivering a big 1/4", 3/8" or 1/2" square cut. The special blade assembly does all the work to minimize operator fatigue and maximize productivity, so you can make more money on the big monster appetite of your customers.

Model #	Description	Blade/ Holder Assembly	Replacement Blades
56450A-1	Stainless Blade Assembly Cuts 1/4" Sq. Cut	56424A-1MK	536-1
56450A-2	Stainless Blade Assembly Cuts 3/8" Sq. Cut	56424A-2MK	536-2
56450A-3	Stainless Blade Assembly Cuts 1/2" Sq. Cut	56424A-3MK	536-3

suggested uses

Put this beast to work if you want to maximize the profit potential on your orders for French fries or steak fries. It's also very useful for cutting other large, firm vegetables, including colossal onions, celery, bell peppers and more.

Monster Airmatic FryKutter™

Never let a wave of hungry customers down. When the popularity of French fries meets your busiest rush times, get more orders out and make more money with Nemco's Monster Airmatic FryKutter. Comes in 1/4", 3/8" or 1/2" cut sizes. Slicing blade assemblies are also available in 1/4", 3/8" or 1/2"

Model #	Description	Blade /Holder Assembly	Replacement Blades
56455-1	1/4" Sq. Cut	56424-1T	536-1T
56455-2	3/8" Sq. Cut	56424-2	536-2
56455-3	1/2" Sq. Cut	56424-3	536-3

suggested uses

It is a must-have for very high-volume fast-food and grab-and-go-style restaurants. Use this workhorse for French fries and steak fries, as well as various cuts of other vegetables, including onions, celery, bell peppers, tomatoes and more.

easy lettucekutter

Who Says You Can't Be All Things . . . ?

Make no mistake, if you're in foodservice, your bottom line can use the cost-cutting efficiency of Nemco's Easy LettuceKutter™.

It was originally designed for cutting iceberg lettuce in a high-volume, quick-service-type establishment. But then along came a restaurant looking to do the same with romaine for its popular Caesar salads . . .

And another wanting a square cut, perfect for its chop salads . . .

And another thinking it would be great to cut grilled chicken, right after cutting its lettuce . . .

And still others that have used it for slicing melon . . .

How 'bout you? Have any ideas? Nemco's always up for designing another blade set—or some other innovation entirely.

Easy LettuceKutter™

Cut mounds of crisp, fresh lettuce in seconds—and keep it fresh for hours, with a cut so incredibly clean, it prevents browning at the leaf edges. Process a whole head of cored lettuce at a time. Scalloped blades and a clean, slicing-action cut with no crushing and no bruising. Interlocked blades avoid flexing and require no tensioning. Plus, cleanup is easy.

Model #	Description	Blade Assembly	Replacement Blades

56750-4	1/2" Slicer	56539-4 (7 blades)

suggested uses

Ideal for onions, celery, potatoes, pickles, firm tomatoes, oranges, lemons and limes.

Blade Assemblies

easy wedger & easy apple corer

Foodservice's Equivalent to the Paper Clip

They call it a staple item. A must-have. A no-brainer. And if you're serving schools, using the corer version is probably the only way you can get the students to eat their apples.

No matter how you slice it, it's one of your most inexpensive solutions for making your food-prep work a whole lot easier.

Granted, Nemco didn't develop the first wedger, or even master the first manual wedging-tool concept. But the way Nemco looks at it, if it's going to be a staple item, it should last a heck of a long time.

So, this one—simply called the Easy Wedger™—is built to operate more smoothly and more durably than any other.

Easy Wedger™ & Easy Apple Corer™

Save labor and cut perfect wedges every time. Easy Wedger cuts cleanly and precisely with stay-sharp stainless-steel blades that minimize bruising. Works so fast, you can cut to order for the freshest selections possible. Built for years of reliable performance. Eight-section Easy Apple Corer looks and functions just like the Wedger, but it includes a pin in the middle of the pusher to simultaneously core while wedging.

Model #	Description	Blade Assembly
55550-4	4-Section Wedge	428-4
55550-6	6-Section Wedge	428-6
55550-8	8-Section Wedge	428-8
55550-10	10-Section Wedge	428-10
55550-8C	8-Section Corer	490-8

suggested uses

Easy Wedger is ideal for beverage operations. Use it for fresh lemon, lime and orange garnishes. Works great at the salad bar too. Try it with tomatoes, pickles, potatoes, cucumbers and zucchini.

Eight-Section Easy Apple Corer – Cores and wedges at once—ideal for apples and pears.

Easy Dicer Two-Way Vegetable Cutter

In seconds, Easy Dicer provides uniform, precision dicing in one quick, easy operation. Cuts onions five times faster than by hand, up to 100 pounds in only 45 minutes. Unique two-way cutting action dices and slices at once, to minimize handling and provide cleaner cuts, producing crisper, juicier shapes. Consistent output increases yield and reduces food waste. Constructed of rugged cast aluminum, stainless steel and engineered plastics for years of dependable service. Holds onions up to 3½ inches in diameter.

Model #	Description	Blade Assembly
55100E	¼" x ¼" x ¼" Cut	55022A

Additional Blade Assembly Options

Model #	Description
55125	½" Grid Assembly Cuts ½" x ½" x ¼" Cut
55065A	⅛" Rotary Cutter Assembly Cuts ¼" x ¼" x ⅛" Cut

Note: To change cut size from base model 55100E, purchase additional blade assemblies from above.

suggested uses

Ideal for dicing onions, potatoes, celery, green peppers and other toppings used for pizza, burgers, coney dogs, tacos, soups, stews, salads and more. For dicing firm tomatoes, use blade assembly 55125. Place cut side of tomato against blade.

Blade Assemblies

easy flowering onion cutter

Crying All the Way to the Bank

Not long ago, a major national restaurant chain stumbled on an onion-appetizer idea that was as grand in presentation as it was in flavor. But the prep work was a bit much, and the kitchen couldn't stay on top of the tidal wave of orders.

Enter Nemco.

Now, the Easy Flowering Onion™ Cutter takes virtually all the labor out with one motion, transforming this trademark menu favorite into a much more cost-effective production and enabling the chain to turn a 700 percent profit.

Easy Flowering Onion™ Cutter

For the authentic cut that lets you serve today's most profitable, great-tasting appetizers—for a return of 700 percent or more! The Easy Flowering Onion Cutter produces these high-profit specialties fast and oh, so easy. Just one stroke turns a colossal onion into a colossal, flowering favorite. Then batter, bread and deep fry. Adapter base lets you use smaller onions as well. Sturdy, all-metal construction for long life.

Model #	Description	Blade Assembly
55700	Onion Cutter	55511
55526	Small Onion Adapter	Included with Model 55700
55513	Core Cutter, Large 2 ³ / ₄ "	Included with Model 55700
55527	Core Cutter, Small 1 ³ / ₄ "	Included with Model 55700

suggested uses

Create the perfect signature-item onion appetizer. Or dip the ends of a flowered raw onion in food coloring to create magnificent onion garnish. Use with colossal and smaller-sized onions.

Core Cutter—Remove onion core with the Core Cutter, and you create space to add a ramekin filled with delicious dipping sauce.

Green Onion Slicer Plus

For fast, fresh-sliced garnishes, salad toppings, appetizers, soup starters and more, choose the Green Onion Slicer Plus. It makes mounds of perfect slices in just one labor-saving stroke. Faster than knives or scissors. Razor-sharp blades are individually replaceable. Wall-mount design saves valuable counterspace.

Model #	Description	Replacement Blades
55250A	3/16" Cut	55225-6 (set of 6)

suggested uses

Slices green onions, mushrooms, peeled cucumbers, olives, bananas, green peppers, strawberries and other fruits and vegetables into perfect 3/16" slices.

easy cheeser cheese cutter

Cost Savings, Cubed

It might not be a complicated matter, but cutting a cheese block into smaller, bite-size pieces is an unavoidable, time-consuming chore nonetheless.

It only makes sense that Nemco would get involved.

Applying its engineering style for user-friendly operation and lasting durability, Nemco developed its

Easy Cheeser™ to serve hotels, caterers, supermarket delis and other foodservice operations with a three-sided concept for cost-cutting:

Speed that saves valuable labor.

Cutting consistency for optimum portion control.

And construction strength that maximizes lifetime value.

Easy Cheeser™

Save time and labor with Easy Cheeser cheese cutters. These rugged, all metal units cut uniform cubes, sticks, squares and rectangles of everybody's favorite cheeses, including mozzarella, Monterey Jack, cheddar, Muenster, Swiss, American and more. Slicing arms are interchangeable and easy to switch. Stainless-steel cutting wires are replaceable. Cubes a five-pound cheese loaf in only 75 seconds.

Model #	Description	Wire Kit
55300A	3/4" Slicing Arm	55288
55300A-1	3/8" Slicing Arm	55288
55300A-2	3/4" and 3/8" Arms	55288
55300A-516D	5/16" Slicing Arm	55288

suggested uses

The Easy Cheeser is perfect for salad bars, deli trays, party packs, in-store sampling, hors d'oeuvres and specialty trays. Great for butter too! Makes individual pats and serving-size squares.

Will slice other cheeses, but frame is designed to cradle mozzarella and cutting wires are spaced specifically for 5/16" slices.

Easy Cheese Blocker™

Cut cheese blocks down to size in seconds for more manageable cubing, slicing and shredding. Sturdy, all stainless-steel construction and rigid cutting bow ensure straight, even cuts plus long life. Calibrated, notched, 1/2-inch cutting guide helps to improve consistency and reduce waste. Stainless-steel cutting wire is easily replaced. Process 40-pound cheese blocks, 35-pound cheese wheels or smaller.

Model #	Description	Wire Kit
55350A	Cheese Block Cutter	55359-P3

suggested uses

Use with the Nemco Easy Cheeser cutter for a total cheese-prep center.

canPro can opener

Winning Can-Do Attitude

At Nemco, sometimes the answer actually *is* to reinvent the wheel—or some other device nearly as old. No, not the 200-year-old tin can. But, rather, the 140-year-old can opener.

By cutting along the seam, on the outside of the rim, Nemco's new CanPRO® recently emerged as a completely revolutionary way to open cans more easily and safely.

Brilliantly conceptualized and carefully developed to include several new design improvements for durability, such as a gearless drive, the CanPRO is now saving time, and elbows, in thousands of commercial kitchens worldwide.

CanPRO® Compact Can Opener

Nemco's unique mechanical design thinks outside the can! Instead of cutting down vertically into the lid, the CanPRO Compact cuts horizontally into the rim for improved food safety, as well as operator safety. Cutting from the outside, the blade assembly crimps as it cuts, eliminating the sharp edge that can slice a hand or damage a spatula. Plus, it leaves no metal slivers that can fall into the food contents. Running the circumference of a #10-sized can just takes a few quick and easy turns of the crank. It's adjustable to all common can sizes and features a permanent mount with an optional temporary clamp, allowing you to move the opener around the kitchen. Security model option available.

suggested uses

The CanPRO Compact from Nemco easily fits #2-, #5- and #10-sized cans.

Model #	Description	Replacement Cutter

Easy Chicken Slicer™

Cut your labor, not your hands, with the new Easy Chicken Slicer. The ingeniously simple design features a unique assembly of *unsharpened* blades that make quick work of breaded, cooked chicken breast. Compared to the conventional knife-in-hand alternative, the Easy Chicken Slicer performs with superior speed, consistency and, above all, safety—with virtually no training required! Cleanup is a breeze. Sharpened blades are also available for cutting other foods. All blades come as factory-pretensioned blade cartridges for super-fast and easy changeout.

suggested uses

If your operation is trying to maximize the exploding popularity of chicken salads and sandwich wraps, this is the tool you need. It quickly and easily cuts through chicken and turkey breasts.

easy grill scraper

Do You Whistle While You Work?

Probably not literally. But the point is, it's a lot easier to enjoy the labor of love in the kitchen when it comes to preparing and cooking the food.

Cleaning up is another story. Especially when it comes to the kind of grueling elbow grease it takes to clear off the griddle.

That's why Nemco felt compelled to design the Easy Grill Scraper™—featuring an ergonomic handle that channels all the pressure into the blade.

That way, your staff can achieve the same desired results with much less effort, and get back to the more fun—and more productive—chores of preparing and cooking a whole lot faster.

Easy Grill Scraper™

Our unique scraper design has a special, ergonomic shape that puts more pressure on the blade for better results. Constructed of heavy-duty cast aluminum with a heat-treated spring steel blade. Replacement blades fit most other brands.

Model #	Description	Replacement Blades
55825	Grill Scraper	55607-6 (set of 6)

ShrimpPro 2000® Power Shrimp Cutter & Deveiner™

Keep pace with the demand of your hungriest shrimp lovers! In just one hour, the ShrimpPro instantly and consistently deveins, cuts, butterflies or splits up to 6,000 shrimp! Operators can hand-feed or attach the feeder tray for higher volumes. Either way, the ShrimpPro does all the work with virtually no risk of injury. Compact, portable design saves space and makes for easy storage. ShrimpPrep is specially designed to operate with your existing Robot Coupe™ food processor.

Model #	Description	Replacement Blades
55925*	ShrimpPro® (2000)	55977
55950	ShrimpPrep® (RC-2001)	55977

Comes with feeder tray, S-M-L depth rollers, lubricant, and two 9¹/₁₆" blade wrenches. Available also in 230 Volt CE model. Call for details.

suggested uses

The ShrimpPro is the perfect answer for uniform deveining and butterflying shrimp for seafood bars and buffets, Asian stir-fry restaurants, caterers and other seafood specialty restaurants and retailers.

Low- to medium-volume seafood operators should opt for the ShrimpPrep.

Optional Accessories

Model #	Description
56004	ShrimpPro® Feeder Tray
55991	ShrimpPrep® Feeder Tray

Robot Coupe™ is a trademark of Robot Coupe USA.

ProShucker® Power Shell Separator™

The ProShucker quickly and cleanly opens up a dozen oysters a minute with virtually 0% risk and 100% yield. A dull threaded bit gently pries open the shell. Works fast, and evacuates all mud and shell fragments so you get maximum meat yield with minimum contamination. Best of all, the ProShucker is so easy to use, it requires almost no training!

Model #	Description	Replacement Bit
55900	ProShucker® (PSS-100)	55957 (set of 3)

Comes with foot pedal, 3 bits/augers and 2 bit replacement wrenches. Available also in 230 Volt model. Call for details. All 230v units are shipped without plug on cords.

suggested uses

Perfect for restaurants with oyster bars and seafood buffets, as well as catering operations and supermarkets.

easy juicer

citrus juicer

The Need to Outlast a Thirsty Public

In a survival of the fittest environment like the foodservice industry, no one has the privilege of being able to afford downtime.

For a particular specialty food chain, famous for its lemonade, a steady and thirsty crowd was a nice problem to have. But being at the mercy of its feeble juicer was not. So, the chain execs turned to Nemco.

To solve the problem, Nemco focused on the bearing shaft of the juicer's handle and, presto! . . . the Easy Juicer™ was born—featuring a heat-treated stainless steel rack and pinion design that now puts the pressure on the fruit, not the franchise.

Easy Juicer™

Easy Juicer puts a 20:1 mechanical advantage in the palm of your hand. Specially designed ergonomic handle is easy to grip. Stainless-steel rack and pinion is supported between two self-lubricating bronze bearings. High-strength steel post adds rigidity. Aluminum and stainless-steel construction plus all stainless-steel fasteners for rugged performance and durability. Strainer cone and cup are removable.

Model #	Description
55850	Citrus Juicer

suggested uses

Ideal for oranges, lemons and limes. Lets you quickly prepare the freshest possible lemonade, limeade, tropical drinks and other seasonal specialties.

Easy Pineapple Corer & Peeler

Take all the labor out of prepping a pineapple. Nemco's latest countertop innovation completely removes the core and peel with one simple pull of its easy-action, top-down lever. Saves time, effort and food waste. A locking mechanism keeps the handle and blade in the up position while loading a pineapple. Tough aluminum and stainless-steel construction and easy disassembly for cleaning extend the life of the unit for great return on investment.

Model #	Description	Blade Assembly
55775	3.5" Pineapple Corer & Peeler	56511
55775-1	4" Pineapple Corer & Peeler	56511-1

Butter Spreader

This is the easiest and most efficient way to spread butter! Roller design promotes even, consistent application on all sorts of menu items, for economical portion control and best food flavor. Holds up to one pound of butter.

Easy Tuna Press™

Removes excess water from canned tuna quickly and easily for better food quality. Sandwiches and salads stay fresh longer, retain a more appetizing appearance because extra water that causes soggy bread and lettuce is completely removed. Holds one 64-ounce foodservice-sized can.

Model #	Description
55800	Tuna Press

When your goal is plain and simple—to make more money satisfying more hungry customers—you simply cannot go wrong with the original Nemco Roller Grill. For exceptional cooking performance, a die-hard, virtually maintenance-free attitude, and the added sales power of custom merchandising features . . . No other name delivers a higher lifetime value.

roller grills

Model 8027

Famous Old Dog. Exciting New Tricks.

In the tradition of allowing the market to influence design, when Nemco acquired the very first roller grill, the next immediate move was to find out how it could serve foodservice operators like you even better.

Now, along with its steadfast appeal as the true original of

its kind, the Nemco Roller Grill operates more quietly, sports a sharper front-of-the-house look, and features even heat distribution completely across every roller. . . . Oh, yeah, and it's built to last even longer than the decades-old original units still going strong today.

All Roller Grills available
with NEW improved
Gripslt™ rollers!

Roller Grills

Let profits roll! Grill hot dogs, egg rolls, taquitos and more. The 360° roller rotation prevents residue buildup, while individual roller heating elements ensure heating consistency. Removable drip pan makes for easy cleaning. Inside, new grease seal feature prevents grease buildup inside the bearing. Electric power requires no ventilation system and infinite heat settings offer convenient temperature control. For optimum roller performance capability, look for Gripslt models that include nonstick properties with grip- and abrasion-resistant additive.

Seeing Is Believing

It wasn't long after entering the hot dog roller-grill market that Nemco's instinct for engaging its customers led to new design ideas.

In this case, the partnership grew primarily with those in the convenience-store segment, where operators were looking for food equipment that offered more than trouble-free, quality

cooking performance. They needed equipment that could help them sell more food in a self-serve model.

Among other ideas, Nemco developed its slanted roller grill that offered a double-whammy of merchandising punch. First, the attractive aroma creates the interest. Then, the high visibility, courtesy of the stair-step rollers, closes the impulse sale.

Slanted Roller Grills

A special tiered roller design adds an effective merchandising edge, because it brings the deliciously tempting grilled hot dogs into better view for your customers. For a high-capacity slanted grill option—without a major investment upgrade—take a look at Nemco’s NEW models 8033 and 8055. And, for optimum roller performance, consider Nemco’s Gripslt models, featuring a proprietary roller coating that grips and turns better than chrome, but cleans up just as easily!

NEW Improved! Gripslt Rollers!

Only from Nemco

Sell more taquitos, pancake rollups and other specialty roller-grilled foods with Nemco’s proprietary Gripslt™ roller coating—available on all Roller Grill models. Gripslt combines a subtle friction characteristic with a smooth surface finish, optimizing cooking rotation without giving up the important food-safety cleanability of conventional chrome rollers.

Tongs With Holder

Like losing the remote for the TV, no one likes it when the roller-grill tongs go missing. Consider the problem solved with this convenient add-on tong-holder combo. Fits any grill model and features a super-elastic cord that allows for easy use without risk that the tongs walk away.

Model #	Description
80650	Tong Holder w/Tongs

Hot Dog Steamers

You can’t beat the moneymaking magic of a classic ballpark hot dog. Nemco’s countertop hot dog steamer cooks ‘em up plump and juicy, and adds merchandising appeal to attract hungry customers. Smart design uses steam to keep buns on the upper bun rack moist and fresh. User-friendly features minimize the need for operator attention. Best of all, hot dogs can be ready to serve in as few as 10 minutes!

suggested uses

Perfect for convenience stores and concession areas short on space. Also great for informal catering events, bars, pool halls, bowling alleys and other public gathering places.

grills—see pg. 31)*

And the Convenience Hits Just Keep on Comin’

Word came down from several high-volume Nemco c-store customers. To make their lives easier and their businesses more efficient, they put a new challenge on the table:

“Our traffic is heavy and in a hurry, and our employees are super busy. Can you take the already easy-to-use Roller Grill

and make it so it requires even *less* operator attention?”

It was your classic case of a nice problem to have. But that didn’t stop Nemco from solving it by introducing new design ideas, such as programmable “set it and forget it” digital controls, and dividers that keep the food aligned on the rollers for better merchandising appeal.

Digital Roller Grills

Nemco's latest grill model is ideal for high-volume, self-serve establishments, where employees have little time to monitor the unit. New digital controls allow operators to place the food on the rollers, hit a button and walk away. The preprogramming then automatically sequences through the preheat, cook and hold settings to achieve a perfectly grilled product completely without supervision. For optimum roller performance capability, look for Gripslt models that include nonstick properties with grip- and abrasion-resistant additive.

Model #	Description	Size (W x D x H)	Volts	Watts	Amps	No. of Rollers	No. of Cords	No. of 6" Franks Per Hour

bun warmers & bun boxes

Model 8075 and 8075-BW

A Hot Dog With Your Name on It

Right along with the c-stores, operations like the concessionaires also survive on merchandising—not to mention the fact that, as in the major sports venues or

retailers, they're often part of the sale of a bigger product. A brand.

As a result, Nemco's full line of Roller Grills includes accessories and complete hot-dog stations, all available with an endless number of custom-merchandising graphics options.

Moist Heat Bun & Food Warmers

Moist heat keeps buns and other foods warm, fresh and ready to serve. Stainless-steel construction adds durability and makes cleaning easy. Stackable design saves space. A variety of sizes ensures you'll find one to perfectly fit your operation.

Model #	Description	Size (WxDxH)	Volts	Watts	Amps	Bun Capacity

roller grill accessories

Model 8036GD

Self-Serve Guards

Polycarbonate guards (available for every grill model except the 8010 Series) offer all the advantages of the standard guards, but with a higher-impact resistance and heat resistance for exceptional durability in the busiest environments. For added convenience, operators can temporarily rest buns and such on the flat top. The guard sits firmly on top of the grill, yet is easily removed for cleaning.

Model #	Description	Size (W x D x H)	Fits Roller Grill

Model 88100-CB-2

Somewhere along the path of consumer evolution, the trend line took a turn toward more hot, crispy, grill-style sandwiches.

What hasn't changed a bit is the consumer's glorious concept of immediate gratification.

So, when awesome isn't good enough until it's also fast, look no further than the company with a knack for flipping the status quo like a hot sandwich.

paniniPro

high-speed sandwich press

Place an Order for "Wow"

Given the high demand, and subsequent high margin, associated with paninis, wraps and all sorts of other grilled-style sandwiches, foodservice operators look at the relatively tedious task of preparing these hot sellers and say, "It's worth it."

But what if. . . ?

What if tedious wasn't part of the equation?

How much more money is there to be had?

When seeing how the PaniniPro simultaneously heats the protein and toasts the bread in a hot minute—on a durable aluminum surface with a tough nonstick coating—these same operators are turning "what if" into a big "wow."

Model 6900-208-GF

PaniniPro™ High-Speed Sandwich Press **NEW!**

Doing the conventional panini press one better, the PaniniPro high-speed sandwich press gives super-busy and space-restrictive foodservice operations exactly what they need to break into the hot-sandwich market. With simultaneous conduction and microwave heating, sandwiches are ready in about 60 seconds—no pre-heat necessary. Programmable, push-button electronic controls ensure heating consistency from sandwich to sandwich, employee to employee, while a built-in USB port makes reprogramming for a menu change a simple process.

Model #	Description	Size (W x D x H)	Volts	Watts	Amps
6900-208-GF	Grooved Top, Flat Bottom	14½" x 31" x 29"	208	2,000	28.0
6900-208-GG	Grooved Top, Grooved Bottom	14½" x 31" x 29"	208	2,000	28.0
6900-208-FF	Flat Top, Flat Bottom	14½" x 31" x 29"	208	2,000	28.0
6900-240-GF	Grooved Top, Flat Bottom	14½" x 31" x 29"	240	2,000	24.0
6900-240-GG	Grooved Top, Grooved Bottom	14½" x 31" x 29"	240	2,000	24.0
6900-240-FF	Flat Top, Flat Bottom	14½" x 31" x 29"	240	2,000	24.0

Arriving preprogrammed with four standard heating cycles, the PaniniPro high-speed sandwich press also includes a flash drive with a user-friendly software capability that makes it easy to change the heating cycles in tandem with your sandwich menu.

Every PaniniPro comes with a spatula that's both flexible and durable, yet won't harm the integrity of the plates' nonstick coating.

suggested uses

This compact workhorse brings a whole new dynamic to sandwich shops, coffee shops, c-stores, fast-casual chains and other retail food operations looking to capitalize on the hot-sandwich trend. It takes little time and space to expand your menu and serve toasty paninis, ciabatta-bread sandwiches, flatbread sandwiches, quesadillas, burritos, breakfast sandwiches, Cuban wraps and more.

Features—The top and bottom plates are available with grooved or flat surfaces in your choice of pairings. A spring-loaded upper plate moves to ensure uniform plate-to-food contact with sandwiches of variable thickness. There is an engineered nonstick coating applied to all food-contact surfaces.

4 push-button electronic controls (with the option to have up to 4 additional buttons) and digital display make operation extremely simple.

You've already prepared some fantastic, totally crave-able food. Don't sell yourself short letting it get cold on the bench. Leverage the style, flexibility, temperature control and dependability of Nemco.

On the countertop or suspended above it, in the front or back of the house, no matter the décor nor the demand,

Nemco has a commercial food-warming equipment solution that fits your needs and maximizes your return.

Warmers strip heaters

Infrared Strip Heaters **NEW!**

As more operators continue to buy Nemco strip heaters, word is getting out that they perform as well as, if not better than, anything else on the market. And, now, the Nemco line is as expansive as any other too!—boasting more model and feature options than ever, including units with single- or dual-bulb warming, complementary incandescent showcase lighting, remote-control, cord-and-plug power and more. All hold foods at optimum serving temperature without drying or overcooking to ensure better-tasting foods and better-looking presentations. Hanging, base-mounted and pass-through designs fit most locations, as well as permanent and temporary requirements. Durable aluminum shell for easy cleanup. Available with infinite temperature control for varying low-, medium- and high-heat settings.

warmers

countertop cookers & warmers

suggested uses

Ideal for serving vegetables, stir-fry, casseroles, lasagna and other items in buffet lines and catering applications. Accepts a 12" x 20" full-size pan or fractional-size pans.

Model 6055A

Model 6055A-43

suggested uses

Primed for virtually any cold foods you want to zap into a hot, fresh, plate-ready state—instantly! Ideal for buns, rolls, breads and other baked goods, and just perfect for tortillas. Great for melting cheese or reheating precooked seafood, meats, pasta, fruits, veggies and more!

Model 6600

Countertop Warmers

Add side dishes and entrées to existing buffet lines or create entirely new temporary buffet lines quickly and easily with Nemco's full-size countertop warmers. You'll enjoy greater menu flexibility and the ability to respond efficiently to changing menu requirements. Plus the reliable adjustable thermostat helps ensure that food held in serving lines is always within your food-safety temperature guidelines. Unique heating-element design provides even heat distribution to prevent "hot spots." Heavy-duty stainless-steel well.

Super Shot Countertop Steamer

This powerful little appliance could wind up being one of the most versatile tools in your entire kitchen. The Super Shot reheats foods and restores their fresh-made flavor in seconds! Make day-old breads, buns and baked goods taste like they just came from the oven. It's ridiculously easy to operate. Simply plug it into a standard outlet, fill the reservoir with tap water, then use the push-button to deliver a pulse of amazing steam. Made of commercial-grade stainless steel and cast aluminum.

Model #	Description	Size (W x D x H)	Volts	Watts	Amps
6600	Super Shot Steamer	16 ¹ / ₂ " x 17 ¹ / ₄ " x 8 ¹ / ₄ "	120	1800	15.0

230 Volt models are also available. Call for details.

NEW! No drip rim.

Model 6100A

suggested uses

Attractive enough for serving lines, round warmers keep soups, gravies, BBQ sauce, hot dressings and dessert toppings warm and appetizing. Great for the back bar too.

Model 6120A

Countertop Cookers & Warmers

Designed for versatility in a wide range of sizes, Nemco countertop cookers and warmers add flexibility while helping you keep food within cooking and serving best practices. Unique heating element design provides even distribution to prevent "hot spots." Twin warmers have separate thermostats and balanced heat systems for maximum control and convenience. Stainless-steel construction—including new stainless-steel wells—ensures durability, prevents pitting and staining, and stands up to detergents, hard water and corrosion. See price list for export voltages. Models also available with inset, ladle and cover included.

Fresh-O-Matic by Nemco

Instantly thermalize your precooked and frozen baked goods, meats, seafood, veggies, pasta and more with the reliable and super easy-to-use Fresh-O-Matic by Nemco. When it comes to food quality, you can't beat fresh-made. But with the Fresh-O-Matic, you can match it. That's because the Fresh-O-Matic uses super-hot steam—hotter than 212°F—to instantly return moist heat to cold, precooked foods!

Model #	Description	Size (WxDxH)	Volts	Watts	Amps
6625B	Fresh-O-Matic by Nemco	16 ¹ / ₂ " x 12" x 11 ⁵ / ₈ "	120	1500	12.5

suggested uses

The Fresh-O-Matic by Nemco can heat, refresh and serve hundreds of piping hot foods, from blueberry muffins, to beef stew, to Mexican burritos, to lobster dinners. You name it. If it's leftover or frozen, it can taste like it's freshly cooked once again.

Model 6625B

warmers

mini steam table & hot plates

Model 6060A

suggested uses

Use one Nemco Mini Steam Table in place of several individual units to keep soups, sauces, gravies, stews and other like foods at the perfect temperature. Adapter plates provide maximum versatility on serving lines, allowing complete meal presentations, such as ribs with dipping sauce, mashed potatoes and gravy, plus many other side dishes.

Mini Steam Table

Mix-and-match adapter plates allow for more than six configurations to meet almost any serving need. Extra deep wells hold the largest pots and pans. Temperature range of 100°F to 200°F. Stainless-steel construction ensures durability and resists pitting and staining. Features "power on" indicator lights and back-mounted, 6-foot cord.

Hot Plates

Solid-top, cast-iron French burners heat up quickly and evenly, with six heat settings that can take you from a simmer to a boil in minutes. Horizontal and vertical configurations with one-, two- and four-burner setups fit most spaces. Multiple burners offer heating versatility. Right burner on the horizontal is a 1500-watt cooker, while the 500-watt left burner is perfect for warming. Vertical units have the cooker in the front. All models equipped with adjustable feet for added convenience.

suggested uses

A popular, versatile choice for serving lines, and tableside and demonstration cooking. Perfect for sautéed and pan-fried foods, such as omelets, crepes and stir-fry. Also ideal for cooking and holding soups, stews and sauces.

Sometimes we don't know we're hungry until the aroma, the sizzle, the glorious sight takes hold of our senses.

Such is the beauty of food sales. The profit power is built right in.

Nemco just plays matchmaker—with smart countertop food-merchandising equipment that preserves flavor and freshness, appeals to all those influential senses, and adds a point-of-sale graphic kick that gets your customers wanting to buy and your cash register ringing.

open-view merchandisers

Model 6421

A Window Into Higher Food Sales

For all that operators love about the hallmark functionality, durability and investment return of Nemco equipment, when it comes to retail food sales, the bottom line begins and ends with the food—not the equipment.

Understanding this—and continuously engineering to it—is what makes Nemco different.

Out of this philosophy was born the Open-View Merchandiser, in which the design was less about what we can add and more about what we can take away.

So, the question is—Will missing front corner posts, a hidden control panel, a slimmer steel frame and sharper, brighter graphics boost sales and profits?

Well, seeing is believing.

Open-View Merchandisers

Nemco's Open-View Merchandiser series is specially designed for a clean, sleek look that places every point of emphasis on the one feature that does all the selling—the sizzling product inside. Less is more with a design that includes high-quality tempered glass, “invisible” front corner posts, stylish backlit graphic headers on all three sides, and strategically placed interior lighting. The Open-View Merchandiser comes standard with both photographic and illustrative-style headers and other features, such as the chunkier brushed stainless-steel legs, that make it a real class act in retail food sales.

suggested uses

Nemco's countertop Open-View Merchandiser is a hot sales solution for convenient stores, concession stands, kiosks, clubhouses, snack shops and other high-traffic retail operations. Great for holding and showcasing prebaked pizza and pretzels, as well as pies and other baked goods.

Every nuance of the Open-View Merchandiser is designed to maintain a clean visual appeal, including the control panel, which nests inside a recessed compartment in the back and disappears behind a closeable door panel.

Model 6423

Model 6425

pizza merchandisers

Model 6451

It's All About Your Food. Period.

Sure, a lot of thinking is behind Nemco's full line of countertop food-merchandising equipment. But when staring at the drawing board, all the design team ever sees is food.

The result has been units that are never over-engineered. Rather,

you get simple solutions that feature the most user-friendly controls, the highest degree of visibility, the easiest to clean interiors and exteriors, and the longest-lasting performance.

No wonder so many consider Nemco "the best value in merchandising."

Pizza Merchandisers

Three- and four-tiered units are ideal for displaying multiple products at once, while holding them at controlled temperatures for better flavor and appearance. Contemporary signage and lighted interior enhance presentation. Stainless-steel, tempered-glass construction. Water reservoir keeps foods moist. Other rack styles available.

suggested uses

Small enough for most operations. Use for whole pizza, individual slices and boxed slices for fast, easy sales.

Optional Accessories

Model #	Description
66785	Set of Four 4" Nickel-Plated, Adjustable Legs (for model 6453 only)

Model 6403 includes a shield over the light bulbs to protect them while loading and unloading pretzels. The removable door easily lifts off for cleaning.

Model 6453 offers thermostatic control up to 200°F and incorporates a water reservoir to maintain humidity.

grab 'n go merchandiser

Equal-Opportunity Profit Machine

Just because you're short on space, doesn't mean you shouldn't be allowed to make more money.

While no one would argue that food merchandising is a great asset for increasing sales, they might say it's not possible to do it very effectively in the smaller foodservice establishments.

Well, Nemco says that's bunk, and developed the vertically gifted Grab 'n Go merchandiser, designed with a narrow face and deep profile that fits perfectly alongside the cash register on even the most crowded POS countertops.

Grab 'n Go Merchandiser

"Compact" doesn't begin to describe the Grab 'n Go. This one-of-a-kind merchandiser is specially designed with a narrow, vertical frame that, just like a book on a bookshelf, slides right into place on even the most congested checkout counters. Clear paneling, interior lighting and heated, angled shelves with interchangeable magnetic graphics showcase the food beautifully. Polycarbonate materials, stainless-steel construction and a powder-coat finish add durability.

Model #	Description	Size (W x D x H)	Volts	Watts
6655	Heated Case	10 ¹ / ₈ " x 16 ³ / ₄ " x 24 ³ / ₈ "	120	345

suggested uses

Heated shelves make this a versatile little showcase unit, perfect for sandwiches, cookies, donuts, warm baked goods and all sorts of other "on the go" favorites.

Heated Snack Merchandiser

Incredibly space-efficient, the Heated Snack Merchandiser has a compact footprint that will fit virtually anywhere on your counter. Features a stainless-steel frame and tempered glass, an impact-resistant polycarbonate door, and heating elements made of Incoloy® nickel-based metal for high-temperature corrosion resistance. Temperature control heats up to 190°F.

Model #	Description	Size (W x D x H)	Volts	Watts
6457	Heated Case w/Two Movable Square Shelves, 13"x 10 ¹ / ₄ "	14" x 14" x 22"	120	390

suggested uses

Ideal for all kinds of sandwiches, donuts, baked goods, concession-type snack items and other warm, fresh-made foods.

Countertop Humidified Merchandiser

Never let your profit potential dry up. Nemco's humidified merchandiser combines a high-visibility showcase solution—complete with clear, tempered-glass panels, interior lighting, angled shelves and graphics—with a water reservoir that keeps baked goods and other warm foods moist and fresh for extended periods of time. Stainless-steel construction with powder-coating adds durability, while manual temperature and humidity controls add versatility.

Model #	Description	Size (W x D x H)	Volts	Watts
6475	Heated Case	20" x 17" x 26"	120	826

suggested uses

This compact unit is perfect for c-stores, snack shops and a host of other retail applications. Keeps fresh a wide range of baked items, including croissants, muffins, bagels, cookies and more.

shelf merchandisers

Model 6480-36S

Just When the Market Was Ready to Give Up . . .

When it came to merchandising hot foods, two axioms were clear.

One: Many foodservice operators would like to display and hold their sale items at optimum temperature for longer than 30 minutes.

Two: Those same operators had resigned themselves to the fact that it couldn't be done.

After all, given the challenge, some of the leading names in food-warming equipment just couldn't pull off the design solution.

Then along came Nemco, developing a genuinely new achievement in extended food warming, while also providing a clean and simply attractive design worthy of every kind of application from c-stores to high-end caterers.

Shelf Merchandisers

Finally! A food-merchandising solution that can really showcase hot foods by holding them at optimum temperatures for hours. Each shelf has its own top and bottom heating with independent thermostats to accommodate variable temperature settings. Features also include a lighted merchandising area, glass sides, adjustable divider rods for easy organization of food product, and an overall stainless-steel construction as part of Nemco's trademark commercial-grade durability design. Powder coating is also available. Plus, ask about custom graphic signage too!

suggested uses

Extremely versatile, the holding capability is perfect for virtually any hot-selling foods you need to merchandise for extended periods of time, while the design fits perfectly in all sorts of high-volume venues, from commissaries and c-stores, to chains and even upscale caterers.

heat shelves

Model 6301-24

Anything But “Off the Shelf”

Fresh off the success of developing a better way to hold foods for an unprecedented length of time on a shelf merchandiser, Nemco immediately recognized another related market need, and an opportunity to apply the same heating technology with astounding results.

“What if we applied a little merchandising magic to a shelf warmer and made it versatile enough for the front of the house?”

Well . . .

Introducing a solution with a rightful place in nearly every kind of foodservice operation. Introducing a shelf unit robust enough for the kitchen, dynamic enough for pass-through applications and, now, with a few subtle refinements—including rounded corners, variable temperature settings and powder-coated sides, standard—attractive enough for the front of the house too.

Heat Shelves

Operators now have a smart, extremely versatile solution for keeping ready-to-serve foods at their warm, appetizing best. Nemco's electric heat shelf is perfect for the kitchen, the pass-through station or, with its special design features, the front of the house too. The unique heating elements minimize temperature drops across the surface, for reliable, uniform holding, and the capability to heat up to 220°F. Includes all stainless-steel construction, an ergonomic control dial and rounded corners for a contemporary look. Plus, it's available with black powder-coated sides—standard!

suggested uses

The versatility of Nemco's heat shelf makes it useful for all sorts of applications, including kitchen wait stations, pass-through areas, serving lines, buffets and more. It can find a place in the back or front of the house, and is especially useful where overhead radiant warmers are not available or not quite enough to achieve those slightly higher temperatures or longer hold times. Use the heat shelf to hold plated foods or boxed to-go orders. Or hold a serving pan on its stainless-steel surface and maximize the power of conduction heat.

Custom graphics are available. Call the Nemco factory for information.

All Nemco cooker & warmers are listed NSF/ANSI Standard 4, making them certified "rethermalization equipment."

The coolest foods shouldn't sit in the dark.

They should be out where everyone can see them, especially when appetites—and the dollars they generate—are so often inspired by visual appeal.

Thus, it's time for Nemco's brand of innovation that can take this truth to new corners of the countertop—even those where cool has never gone before.

cold condiment chiller

Model 9020-3

Just Chill

With the rise of high-margin self-serve stations that demand a versatile condiment display for maximum moneymaking potential, more foodservice operators are under pressure to innovate anywhere they can.

The problem with “anywhere”? . . . It’s often short on space.

Enter the Nemco Cold Condiment Chiller that makes holding all kinds of garnishes and “refrigerate after opening” favorites possible without the bulk of conventional compressor units.

Now, everyone is taking it easy with what some would argue is Nemco’s coolest innovation yet.

Cold Condiment Chiller **NEW!**

Expand your self-serve offering of condiments and other chilled foods with the industry's most compact NSF unit. The Cold Condiment Chiller features thermoelectric technology that effectively holds at required temperatures without the noise, maintenance and space-hogging drawbacks of conventional compressor units. A simple sleek look and feel makes it appealing in a high visibility self-serve application.

Model #	Description	Size (WxDxH)	Rating	Hz
9020	Chiller Only (no pans included)	15" x 9 ¹ / ₄ " x 11 ³ / ₄ "	6.7A @ 12Vdc	60
9020-1	1- ¹ / ₃ Stainless Steel Pan w/Clear Hinged Lid	15" x 9 ¹ / ₄ " x 11 ³ / ₄ "	6.7A @ 12Vdc	60
9020-2	2- ¹ / ₆ Stainless Steel Pans w/Clear Hinged Lids	15" x 9 ¹ / ₄ " x 11 ³ / ₄ "	6.7A @ 12Vdc	60
9020-3	3- ¹ / ₆ Stainless Steel Pans w/Clear Lids	15" x 9 ¹ / ₄ " x 11 ³ / ₄ "	6.7A @ 12Vdc	60

suggested uses

Nemco's Cold Condiment Chiller is a must-have accessory on any convenience store self-serve island or stadium concessions counter. It keeps fresh all kinds of fruit garnishes for smoothies, as well as "refrigerate-after-opening" items, such as relish, onions, pickles, salsa, jalapeños, sauerkraut, banana peppers and more.

Available with trays and lids that allow for a 1, 2 or 3 condiment-option configuration.

Toasting.

Is there any other cooking operation so simple and so subtle that can so easily make or break the appeal of a food item?

Sounds like a job for Nemco.

For high- or low-volume operations, front- or back-of-the-house applications, only Nemco offers a line of countertop toasters that consistently promise such a perfect product—no matter how fickle the consumer world.

conveyor toasters

Model 6800

Let's Propose a Toast!

Nothing claims to have a rightful place on the countertop more than the beloved toaster.

So, when the market all but shouted for a high-performing, user-friendly unit that is capable of delivering a better product, naturally the market looked to the

countertop equipment sages at Nemco.

The result is a line of commercial-grade show stealers that feature more toasting uniformity and a form & function that is perfectly suited for virtually any setting, from the fast-paced kitchen to the busiest serving lines.

Conveyor Toasters

Nothing promises better toasting perfection, with less maintenance hassle, than the Nemco Conveyor Toaster—featuring a smart, simple design that delivers outstanding performance, with no wasted energy. Nemco’s proprietary element pattern provides consistent toasting, left to right, across the entire conveyor, while the four-position rotary switch—with optional one- or two-side toasting—includes a ‘stand-by’ mode that conserves energy by running the topside element at a low temperature when the unit sits idle. A black powder-coat top and stainless-steel body, with heat-releasing louvers that keep it cool to the touch, make it a great model for front-of-the-house operations with self-serve lines. For 300-piece/hour capacity, choose model 6800. Or, for a higher volume 1,000 pieces/hour, go with model 6805.

Model #	Description	Size (W x D x H)	Volts	Watts
6800	2-Slice Toaster	14" x 18" x 15"	120	1660
6800-PP	2-Slice Toaster w/Prison Package	14" x 18" x 15"	120	1660
6805	3-Slice Toaster	19" x 18" x 15"	220	3600

suggested uses

Works in tough back-of-the-house applications, but has the finesse to hold its appeal in self-serve lines too. Great for toasting bread, bagels, English muffins, premade waffles and other items commonly dropped in a toaster at home.

Model 6805

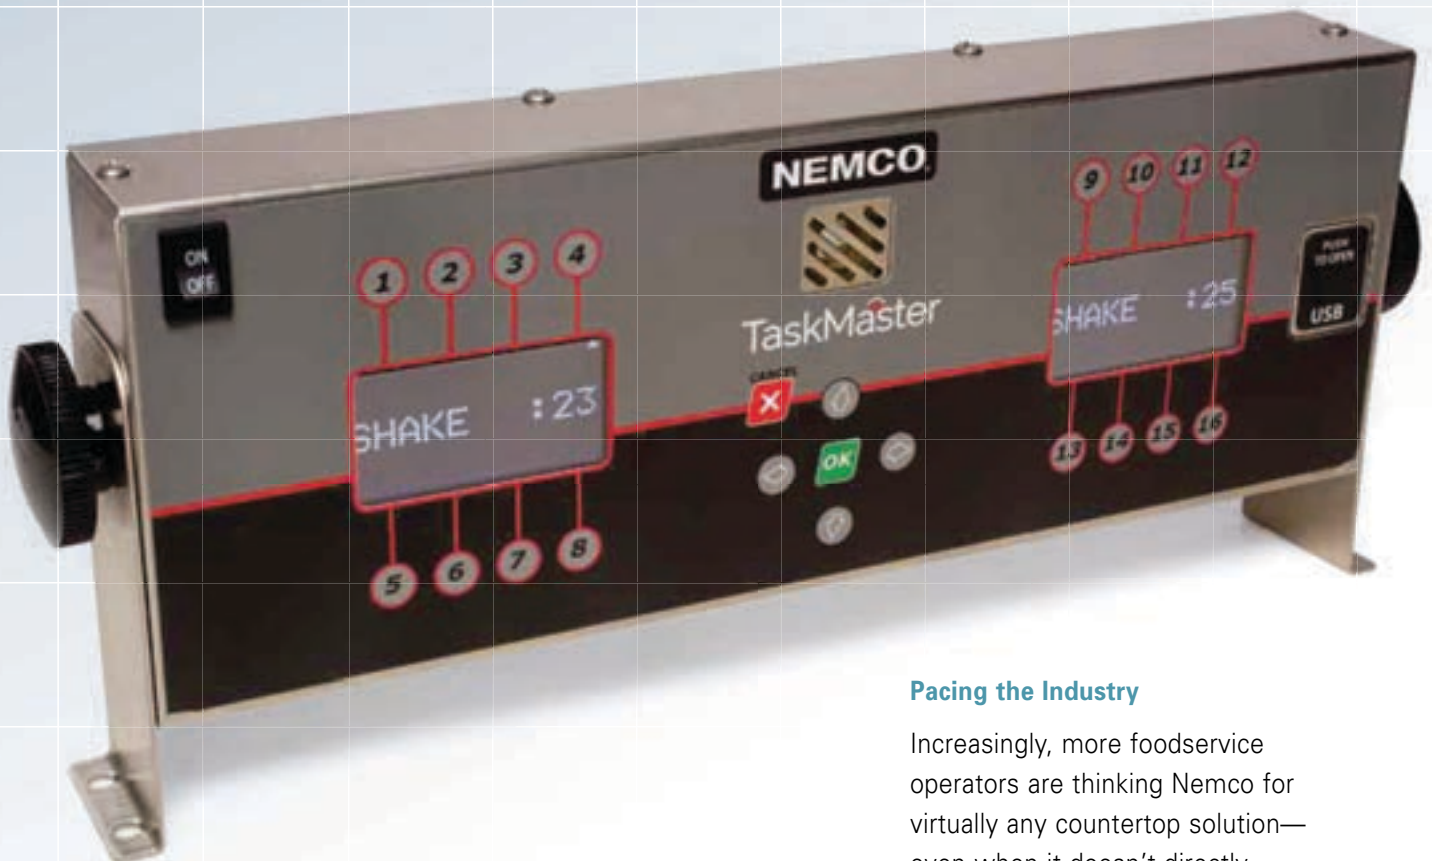

In a world as full-speed and potentially chaotic as a commercial foodservice kitchen, establishing order is an absolute premium.

Where else would one be inclined to turn for assistance than the company that writes efficiency into every product-design spec it creates?

Start the clock. This is the countdown to turning chaos into a well-oiled machine.

taskmaster timer

Model 2550-16

Pacing the Industry

Increasingly, more foodservice operators are thinking Nemco for virtually any countertop solution—even when it doesn't directly involve food.

This time around, the capacity for innovation took labor savings to a new level, with the development of a sophisticated, but extremely easy-to-use, timer designed to turn multitasking into an art as fine as the finest cuisine.

TaskMaster™ Timer **NEW!**

When time is of the essence, master it all with this programmable genius. Nemco's Taskmaster multi-channel timer can store the timing protocols of up to 64 kitchen activities, with the ability—depending on the given model—to run as many as eight or 16 of these protocols simultaneously. The TaskMaster, literally, is as easy as pushing a button and comes preprogrammed from the factory with basic settings—or to your specs. It also features a volume-adjustable alert and a large-font LCD display that clearly tells the staff what action to take when the alert sounds.

Model #	Description	Size (WxDxH)	Volts
2550-8	8-Channel, Single-Display	8 ¹ / ₈ " x 2" x 4 ³ / ₄ "	105-265
2550-16	16-Channel, Twin-Display	14" x 2" x 5"	105-265

suggested uses

Great for crazy-busy, heavy-volume kitchens of all kinds—especially fast-food, fast-casual, cafeteria and other highly process-oriented operations. Serves as a never-fail reminder for a wide range of continuous kitchen chores, even outside of cooking.

Single-display, 8-channel or twin-display 16-channel control panel option.

For breakfast and dessert menu items that always sell big with a sweet-tooth public, Nemco offers a line of clever food-equipment solutions perfect for the front of the house.

How clever?

They're so easy to use, so compact on the counter, and so simple and rugged in their design, you make the money while you let your customers make the food themselves!

bakers waffles & cones

Waffle Bakers

Nemco Waffle Bakers are so easy to use, they're perfect for self-serve buffet lines. Simply fill and close the grid, then push the timer. Top-mounted digital controls maintain ideal baking temperature. Sensors ensure uniform baking on both sides. LED readout counts down baking time (typically only 3½ minutes!) and the bell signals when done. Floating hinges allow top grid to rise as waffle bakes to perfection. Interlocking grids reduce batter overflow. Coiled, spring-type handles never get hot. Bake up to 20 seven-inch-diameter waffles per hour, per grid. Easy-to-clean SilverStone® grids available.

Standard Waffle Bakers

Model #	Description	Size (W x D x H)	Volts	Watts	Amps

77391	Drip Tray, Polycarbonate

Model 7000A-2 & 7000A-S

Model 7020A

suggested uses

Designed to fit flush against the wall, Nemco Waffle Bakers are great for front-of-the-house setups. Popular for breakfast, brunch, lunch and all times in between, waffles are ideal for creating new signature items. Top with fruit, dairy specialties, dessert sauces and more.

**NEW! Self-Serve
Made Super-Easy!**

Less labor for you means more money for you. Pair up the NEW Batter Dispenser with the NEW auto-start Belgian Waffle Baker (model 7020A-1AS on p. 76) and let your customers enjoy preparing their own fresh-baked waffles!

Batter Dispenser

Take your breakfast buffet line to another level with Nemco's super easy-to-use batter dispenser that simplifies self-serve waffle making. A soda-machine-style valve dispenser features a smooth flow for convenience and a reliable seal to minimize mess. The stainless-steel construction adds durability, while the faceplate graphics apply an attractive visual accent.

Model #	Description	Size (WxDxH)
7050	Batter Dispenser	12" x 12" x 18 1/4"

Cone Bakers

For fast, convenient, precision baking of waffle cones. Preheats in just 12 minutes and produces up to 60 cones per hour, per grid. Heavy-duty, lockdown, fixed, seven-inch aluminum grids provide uniform thickness, while flat-ring heating elements bake to a taste-tempting, overall golden brown. Easy-to-read LED display counts down baking time. Audible alarm signals the minute baking is complete. Coiled, spring-type handle remains cool for fast, easy handling.

Model 7030A-2 and 7030A

Ice Cream Spade Well

Features a continuous flow of water to maintain optimum cleanliness of your ice cream spades and scoops for better food quality. No more flavor transfer and no more cross-contamination that increases your food-safety risks. Wells are available in a variety of sizes—each one designed with wide compartments that allow for easy access to and removal of the spades during rush times. Versatile mounting capabilities and optional left- or right-side spigot orientation adapt to your kitchen. Units are easy to turn off, drain and disassemble for cleaning, and they all meet NSF approval.

Model 77316-19 and 77316-7

*Not included with Spade Well.

suggested uses

Great for ice cream shops, kiosks, delis or concession stands—especially those that see heavy traffic. Also great for food-court operations that use scoops to serve potato, macaroni and other cold salads and slaws.

The floor is yours.

Because your next great investment in the profitable world of food sales will fit right on your countertop.

You name it— pizza, pasta, shrimp, and more, baked, boiled or just perfectly rethermalized. Only Nemco could give even the smallest kitchen the power to offer a full menu . . . along with the equipment speed, convenience and long-term lifetime dependability that translates into incredible value.

countertop ovens & boiling unit

Model 6200

Model 6215

Countertop Warming & Baking Oven

Now you can have a fully functional, multipurpose oven, right on your countertop to bring more, big-menu variety to even the smallest kitchen. Just plug into a standard outlet, and add more baking capacity to your operation instantly. Takes minimal counterspace with no ventilation required. Thermostatic control to 700°F with independent on-off switches for upper and lower heating elements. Sixty-minute timer. Comes with two 15¹/₈-inch by 14¹/₄-inch wire shelves; holds up to four.

Model #	Description	Size (W x D x H)	Volts	Watts	Amps
6200	Warming and Baking Oven	19 ¹ / ₂ " x 22" x 23 ³ / ₄ "	120	1500	12.5

Countertop Ovens

Smaller, lower-volume foodservice operations, such as kiosks, bowling alleys and taverns, can bake virtually anything in this compact, low-profile single-rack countertop oven. Choose from two stainless-steel models with 13¹/₂-inch by 13⁵/₈-inch wire racks (fits 12" pizza), 15-minute timer, and upper and lower heating elements. Model 6210 features independent on-off switches for upper and lower heating elements, thermostatic control to 700°F and a 60-minute bell timer. Model 6215 features a 450°F preset thermostat and 15-minute timer switch. Both have a crumb tray for easy cleaning.

Model #	Description	Size (W x D x H)	Volts	Watts	Amps
6210	All-Purpose Oven	21 ¹ / ₄ " x 21 ¹ / ₂ " x 8 ⁷ / ₈ "	120	1500	12.5
6215	Pizza Oven	19 ¹ / ₈ " x 20 ¹ / ₂ " x 7 ⁷ / ₈ "	120	1450	12.1

suggested uses

Nemco's ovens are ideal for reheating foods in snack bars, taverns, concession stands and other retail operations. They're perfect for reheating pizza, cookies, pastries, rolls, fresh breads, pies, toasted sandwiches and all sorts of other precooked items.

Model 6205

suggested uses

Nemco countertop baking and pizza ovens are great for rethermalizing and baking foods in snack bars, taverns and concession stands.

Countertop Pizza Ovens

Get the incredible bake of an authentic deck-oven pizza in this unique countertop model. Each is equipped with a genuine baking stone for that killer pizza taste. Model 6205-240 bakes fast and recovers quickly. Two removable 19-inch stone decks and heavy-duty metal-sheath elements distribute heat evenly. The reflective stainless-steel surface ensures even baking under the top deck. Temperature range of 300°–700°F. Six-foot cord comes from the right bottom rear.

(Must use a pan or screen with frozen foods.)

Model #	Description	Size (WxDxH)	Volts	Watts	Amps
6205	Square Deck	25 ¹ / ₄ " x 26" x 22"	120	1800	15.0
6205-240	Square Deck	25 ¹ / ₄ " x 26" x 22"	240	5400	22.5

Optional Accessories

Model #	Description
66785	Set of 4 Nickel-Plated, Adjustable Legs
66795	Baking Stone

Model 6750-240

suggested uses

Use for all types of pasta, vegetables, dumplings, shellfish and more. Also great for reconstituting food and reheating frozen items.

Countertop Boiling Unit

Preheats in twelve minutes, and recovers fast. Features stainless-steel construction and heavy-duty baskets with insulated handles. Twin baskets designed to hold everything from spaghetti noodles to lasagna noodles. Removable control-panel assembly for easy cleaning. Convenient front-draining system with safety lock.

Model #	Description	Size (WxDxH)	Volts	Watts	Amps
6750-240	Single Tank, 2 Twin Baskets. 2.5 Gallon Capacity	12" x 24" x 20"	240	6000	25.0

Optional Accessories

Model #	Description
66785	Set of 4 Nickel-Plated, Adjustable Legs
66787	Set of Six 4" x 4" x 4" Baskets

Optional Baskets

Accessory basket set lets you cook and drain 6 individual servings separately.

BusBoy by Nemco®

Commercial Food Waste Disposer Systems

Works as Tough as It Looks

BusBoy food-waste disposers are built tough to work hard and work long in the toughest foodservice environments. That means dependability.

BusBoy horsepower has proven its strength in commercial kitchens around the world. Sealed shafts prevent motor damage, and noncorrosive parts virtually eliminate the chance of a sudden breakdown. Oversized grinding tables improve speed and reduce motor strain for faster, more efficient grinding. Cast chrome alloys provide maximum grinding performance.

A Wide Range of Models Handles Every Food Waste Need

- Medium-to-large operations with heavy food-waste requirements
- Small operations or single-use kitchen stations
- Supermarkets or other sites with large, bulky waste
- Pot and pan sinks, salad and vegetable preparation tables
- Dishwashing stations

For your convenience, Nemco offers a full line of adapter kits and mounting assemblies to help you convert any competitive commercial disposer into a dependable BusBoy quickly and easily.

Are you leaving **money** on the counter?

When you

have a signature idea
that's too labor intensive,

need "ready-to-serve"
to stay ready longer,

find the premium of performance
more affordable than service calls,

want to squeeze every dollar
out of your POS,

wish you had more kitchen space
to expand your menu,

think countertop.
Think Nemco.
