

SMALL INVESTMENT **Big Profits!**

Introducing the New 3.5" Color LCD Touchscreen Display and USB port

The patented Quik n' Crispy® Model GF II uses a combination of forced hot air, radiant heat, and an elevated perforated cooking basket to prepare ovenable frozen foods to the taste and texture as if they were deep-fat fried. Crispy on the outside and moist and tender on the inside!

- Ideal for start-up businesses, bars and clubs, family entertainment centers, delicatessens, snack stands, and others who wish to prepare and serve profitable restaurant quality menu items at a fraction of the cost of building a commercial kitchen.
- Great for businesses such as resorts, hotels, and restaurants with lounges, that already have a full kitchen. They can now close the kitchen earlier, saving thousands in labor cost, and still serve delicious late night snacks and appetizers to their customers!
- **New Easy to Use LCD Color Touch Screen Display** - Create and Edit 15 recipes with menu names, times, and temperatures. Use the USB feature to import and export recipes to multiple units within your system!
- Simple and easy to operate – you don't need a culinary trained chef or cook to produce crispy and delicious menu items!
- Prepare up to 2 lb. of a single product per batch, or 4 to 6 different menu items at one time!

The 120 volt, 14.5 amp Quik n' Crispy® utilizes a standard 120 volt plug, NEMA #5-15P and can be plugged into any standard outlet. It takes approximately 9 minutes to warm up from room temperature to 420°F.

Receptacle:
NEMA #5-15R

15A 125V

The 120 volt, 18.3 amp model requires a dedicated 20 amp circuit and utilizes a 20 amp plug, NEMA #5-20P. It takes approximately 6 1/2 minutes to warm up from room temperature to 420°F.

Receptacle:
NEMA #5-20R

20A 125V

The dual voltage 208 volt / 240 volt unit utilizes a single phase, 4-wire, 30 amp plug, NEMA #14-30P. It takes approximately 1.5 to 2.5 minutes to warm up from room temperature to 420°F, depending on the input voltage. Since the pre-warm is so quick with this model, it provides the operator with "Cook to Order" capabilities.

Receptacle:
NEMA #14-30R

30A 125/250V

Model GF II SPECIFICATIONS

(Six Menu Operation)

Electrical Specifications:

Voltages US / Canada: Single Phase • 60 Hz. (C-UL Listed)
