

Anets SilverLine™ Manual Gas Griddle

SLMG Models

Item No.

Anets Introduces A Griddle Designed for Years Of Outstanding Performance

The reliable Anets heavy duty stainless steel construction is ready for your busy kitchen. Dependable manual valves put temperature control in the operators hands. Convenient viewing ports enable the user to see the burner flame for straight forward flame control. The standing pilot ignition system is easily accessible through individual access points. One U-shaped burner for every foot of griddle width provides even heat distribution across entire griddle surface and heat zone control. Available in a variety of sizes. Get Anets quality at an affordable price, the Anets manually controlled griddle.
